Re: JAMES HENRY GALE
Applicant-Typist

Dear Sir:

In my efforts to obtain an eligible list of stenographers and typists, I gave the typing test beginning, "The rural school project..", to JAMES HENRY GALE, 1456 Olivewood Avenue, Lakewood, Ohio, and same is attached hereto for grading.

Applicant stated that he is 18 years of age, born September 28, 1921, at Cleveland, Ohio, the son of JAMES HENRY and VIOLET MARIE GALE. His father is a biller at the Ohio Provision Company. Applicant is single, has a brother, [redacted] who is a student, and a sister [redacted] a student. He does not have any relatives who were ever arrested, nor any in the Government service. He states that he has never been arrested for any offense, has never been involved in any court proceedings and does not have any debts. His health is good. b6

EDUCATION

Applicant graduated from the Lakewood High School, Lakewood, Ohio, in June 1939. He intends to take a course in accounting at Cleveland College as soon as possible. While in school, he was a member of the football and wrestling teams.

EMPLOYMENT

Applicant was employed at Rarnet's Pharmacy, 14239 Detroit Avenue, as a clerk at the soda fountain, from 1937 to 1939, under Mr. JEROME RARNET, which was part time work. Since August 1939 he has been employed by the Ohio Provision Company, 61st and Clark Avenue, as a clerk and also helps load trucks. This work is under Mr. A.J. McCREA, the hours being from 4:00 A.M. to 12:00 Noon. He makes approximately \$23.00 per week.

Applicant belongs to the Peace Club of Lakewood, which is a club recently formed to promote peace in the United States. He also belongs to the Clementine Club of St. Clements Church.

Re: JAMES HENRY GALE

This applicant is only 18 years of age, but appears older than this, as he is 6' 2" in height, makes a good appearance, is possessed of a pleasing personality and impressed me as being quite intelligent and one who, with experience, would be an excellent employee.

He has taken shorthand, but did not feel like he could take the test at this time, but states that he can take shorthand at sufficient speed to take letters.

I recommend favorable consideration for this applicant.

Will the Bureau please advise me as to the results of the typing test on this applicant telegraphically as I would like to commence an immediate investigation and if the investigation results favorably, would request authority from the Bureau to hire him temporarily as a typist in view of the fact that I have not been able to obtain any satisfactory male applicants to pass the stenographic test.

Very truly yours,

The rural school project of the continental United States consists in educating over 18 millions of young people between the ages of 5 and 20 who live in small towns and villages or in the open country. The 300,000 or more schools classified as rural enrolled nearly 12 millions of pupils in 1920, employed 425,000 teachers, supervisors, and principals, expended \$391,000,000, and had a property investment of not less than \$767,000,000. In number of schools, enrollment, attendance, and teaching corps, the rural project is larger than the urban project; in expenditure and permanent investment it is less.

Two years ago at least one-fourth of the rural school enrollment and 45 per cent of the rural teaching corps were in 187,951 one-room schools. Nearly all of these schools are in the open country. They are the usual and commonplace response made in the United States to the problem of training country children. For 80 years or more educators have known and have pointed out that the little school, even at its best, is an ineffective instrument and ought to exist only where it is impracticable to provide anything better; but each State, as it established a public-school system, permitted and encouraged the little schools, and until very recently they have continued to increase in number. Recent surveys have shown that almost without exception the one and two teacher schools are the weakest in the system.

There have been many attempts made to raise the level of rural education, most of them to some extent successful. They have taken and are now taking the form of educational surveys and campaigns; efforts to secure more funds and more equitable distribution of funds; special appropriations in State aid for weak schools; more centralized, responsible, and professional administration and supervision; more carefully gathered data to detect weaknesses and determine their causes; laws intended to bring about longer terms, better attendance, better qualified teachers, and more adequate school buildings; setting definite standards and recognizing in a special way the schools that attain those standards; and consolidating smaller schools or districts into larger and stronger educational units.

The inherent weaknesses of the small school are in the difficulty of proper grading, the limited time that can be given each class or grade, the limited social experience, and the lack of incentive in the small groups. These weaknesses can be overcome only by removing the thing itself, by changing the small school to a larger one. Many educators believe that the first logical step in the solution of the rural school problem, just as it has been of the city school problem, is consolidation wherever at all practicable, and that along this line the greatest success can be achieved.

Re: JAMES HENRY GALE;
APPLICANT - TYPIST.

Dear Sir:

Reference is made to the attached report of
Special Agent W. H. Nimmins, dated at Cleveland, Ohio,
October 26, 1939 in this matter.

Due to the numerous index cards on subversive
individuals, which have to be made in this office, and
due further to the great increase in volume of all
types of work in this office, it is recommended that
this individual be employed in the capacity of temporary
typist. The applicant has been contacted telephonically
and has advised his willingness to accept temporary
employment should it be offered him.

It is requested that if the Bureau deems it
expedient to hire this individual, this office be ad-
vised telegraphically.

Ohio Provision Company, Cleveland, Ohio.

Former employment -

Otis Steel Company, Cleveland, Ohio.
Morris Company (cashier), Cleveland, Ohio.
Cleveland Furnace Company (time clerk),
Cleveland, Ohio.

Credit record from 1920 to 1935 always satisfactory. No inquiries since 1935.

CRIMINAL RECORD INQUIRY

FRANK BOCHIN, in charge of the Criminal Records Bureau of the Cleveland (Ohio) Police Department, checked the

67-376

name indices of his bureau for a record of JAMES HENRY GALE, with negative results.

EMIL H. SMITH, Sergeant of Police, Traffic Record Room at the Cleveland (Ohio) Police Department, caused a search to be made of the traffic violation records for the name of JAMES HENRY GALE, with negative results.

STILES D. BRUMBAUGH, Deputy Clerk of Juvenile Court, Cleveland, Ohio, made a check of the records of the Juvenile Court from 1920 to the present time and stated that he had no record of a family of the name of the applicant.

EDUCATION

AT PARMA, OHIO.

Miss WINIFRED J. STROUD, Principal of the Pearl Road School, 6125 Pearl Road, Parma Heights, Ohio, stated that she recalled JIM GALE when he entered that school about 1932 or 1933. She said that he was a red-headed boy and was rather well liked in the school, although he was only there but a short time as he was transferred to the Henry J. Schaaf School when it was the junior high school. She explained that since that time the Henry J. Schaaf School was made a high school and that the Ridge Road Junior High School now takes care of the students after they leave the sixth grade. Miss STROUD stated that the records had been transferred to the Board of Education Office on Broadview Road but she recalled that GALE's work in school was satisfactory.

Miss STROUD stated that at that time he was a little rough at times while on the school bus but that he gradually became better in his conduct. She said that his attitude was good and that he worked hard but when it came time to transfer him for promotion to the higher class in the same grade, he came to her and asked that he be permitted to remain with his former classmates, as he liked them better and he was permitted to remain in his previous class.

WILLIAM S. BASSETT, Principal of Henry J. Schaaf High School, Parma, Ohio, was interviewed regarding any record at the school of GALE, with negative results. He referred the writer to the Board of Education, explaining

67-376

that all withdrawals are maintained by that office. He was very cooperative and made several telephone calls trying to get information.

Miss MARIE HAMRATTY, Secretary to the Superintendent of the Parma Schools, in the office of the Board of Education at 6195 Broadview Road, Parma, Ohio, stated that the Board had no record of the elementary school grades of JAMES GALE and she did not know where they could be obtained. She did, however, furnish the writer with the following information taken from the Cumulative Record Sheet of JAMES GALE for the period while he was in the 7th and 8th grades:

JAMES GALE

Born September 28, 1921

1933-34 - 7th Grade

English	D
Social Science	C
Mathematics	C
General Science	C
Practical Arts	D
Music	C
Art	D

Health	C
--------	---

1934-35 - 8th Grade

English	C
Social Science	B
Mathematics	B
General Science	C
Practical Arts	C
Music	C
Art	C
(marked over with letter E in red ink)	
Health	C

It was explained to the writer that C is average and that D is passing but not satisfactory. The E in red indicated a failure in this subject for this term. It will be noted that this is the only subject which GALE failed in during his entire school career, as indicated by the records examined.

GALE's health report was exhibited and it indicated that he had no defects other than the left eye which was rated as 20/40, while the right eye was rated 20/20. This report was prepared March 30, 1933 and bore the notation "Note sent referring him for examination." Above this is a notation that he had glasses at that time.

67-376

Miss HAMRATTY also exhibited a Transfer Certificate issued March 31, 1936, which indicated that he attended the Henry J. Schaaf Junior High School and was transferred to the Emerson Junior High School in Lakewood, Ohio. She explained that he attended school in his 9th year at the Henry J. Schaaf School but 134 days, of which he was absent $12\frac{1}{2}$ days, and because of the short period, she did not have a record of his subjects in the 9th grade. The card indicated the old address of the family as 10000 Ridgewood Drive, Parma, Ohio, and the new address as 1456 Olivewood Avenue, Lakewood, Ohio.

AT LAKEWOOD, OHIO.

Miss GRACE NEEDHAM, Principal of the Emerson Junior High School on Clifton Boulevard, Lakewood, Ohio, was interviewed and she exhibited records showing that JIMMY GALE was a fairly good pupil there, having an intelligence quotient of 116. The average for the school she explained was between 110 and 120 at the time.

Miss NEEDHAM stated that GALE's home room teacher was now gone from the school. She also stated that at the time GALE attended the school, the 9th grade pupils were not permitted to play football and because JIMMY GALE was at that school only 44 days, having entered on April 14, 1936, he could not have possibly played football at that time. Miss NEEDHAM indicated that he may have been on the wrestling team as no record is maintained of that activity except that GALE's physical education grade was satisfactory.

Miss NEEDHAM further indicated that had GALE been into any trouble while he attended school or had any family problems at that time, she would have no doubt remembered him, as she was the Assistant Principal at the time and had the duty of settling all difficulties and problems which arose.

The following record was produced by Miss NEEDHAM:

JIMMY GALE

Entered April 14, 1936

Date of birth, September 28, 1921

67-376

Grades transferred:
(Board of Education, Parma, Ohio
had no record of these)

English	F
Social Science	G
Mathematics	G
Practical Arts	E
Journalism	F

Rating in Emerson Jr.
High School while in 9th grade
(44 days)

English	C
Music	Satisfactory (only grade given)
Commercial	A
Printing	B
Wood Shop	C
Physical Education	Satisfactory

Miss NEEDHAM explained that at the time the grades were transferred, the marking of "F" for Fair, "G" for Good and "E" for Excellent was used and that JIMMY GALE came to the school with an "E" in Practical Arts, which did not indicate failure as shown on his previous record for plain Arts. The markings used by the Emerson School are "C" - 80 to 88, "B" - 88 to 93, "A" - over 93. She stated that the attendance for GALE must have been nearly perfect as there is no indication to the contrary on the records.

ROBERT L. MEEKS, Assistant Principal, Lakewood High School, Lakewood, Ohio, produced records indicating that JAMES HENRY GALE had entered the Lakewood High School on September 8, 1936 and had attended regularly until he graduated on June 9, 1939. He stated that GALE had taken a commercial course while attending school and had rated 130th out of 522 students for a period of three years while he attended school there. He stated that the Intelligence Quotient of GALE was 116, explaining that 100 is the average for the school students as a whole, but that the average in Lakewood High School was 108 at that time. Accordingly, he indicated that GALE was above the average as a student in school.

67-376

Mr. MEEKS produced cards showing the following courses taken by GALE:

	Average
2 years - Typing	C
1 year - American History	A
1 year - Accounting	A
1½ years - Printing	B
1½ year - Salesmanship	B
1½ year - Business Law	B
1 year - Bookkeeping	C

MEEKS explained that "C" is the average grade, and that forty percent of all grades given are "C" grades. He also explained that only seven percent of the grades given are of "A" grade.

Two merit cards were produced signed by S. O. CHAMPION, teacher of printing, regarding GALE, which indicated that he was a faithful worker, dependable, of excellent character and fair leadership.

MEEKS stated that he did not recall GALE personally as he deals mostly with the students who have committed minor infractions of the school rules and to his knowledge, GALE had never been before him. The records verified this statement, as there was no record of discipline in the files. MEEKS also stated that the records do not indicate GALE as being active in football and/or wrestling, that he might have taken part in those activities and worked hard but was not a member of the teams to his knowledge.

RALPH E. NESS, football and wrestling coach of Lakewood High School, was interviewed and he stated that he did not recall GALE as being on the football team; that he might have tried out a few times but was not active, otherwise he would probably recall him. He stated that he had been wrestling coach but one year and to his knowledge GALE was not a member of the team last year.

Previously it was explained by MEEKS that ARCH PETERSON was the former wrestling coach and GALE may have worked with him but the records do not indicate that he was particularly active in this sport. PETERSON has since left

the city and his address is not known at the present time.

THOMAS E. BORTNER, Home Room teacher of GALE while he attended Lakewood High School, was interviewed and he stated that he recalled him very well and that he was a "fine boy." He stated that GALE was punctual and that he had a better basic moral foundation than the average boy of his age. He believed GALE to be honest in every way. BORTNER stated that he or any other Home Room teacher would know all of the students under their supervision perhaps better than the average teacher who has them for classes periodically.

GALE was under the supervision of BORTNER for two and a half years, being in the Home Room one thirty minute period each day. BORTNER explained that he was responsible for the conduct of the students and would discuss their problems with them during this period, therefore, getting to know them quite well.

JOHN C. MITCHELL, Jr., Principal of Lakewood High School, stated that he could only give the writer three minutes of his time and did not seem at all cooperative, however, he did upon request send a student with the writer to another portion of the school to look over the year book of the school. MITCHELL stated that he did not recall GALE and knew nothing about him except that contained in the records.

The High School Year Book, known as "The Cinema - 1939" indicated that JIM GALE was a member of the graduating class, however, he was not photographed for the year book. A notation appeared in the book as follows:

JIM GALE - Commercial. English Council 2,
Baseball 3, Printing 2, 3, 4,
Secretary-Treasurer 4.

It was explained by the students in the Cinema office that this indicated that JIM GALE had taken a commercial course in school and that during his second year he was a member of the English Council, which is an elective office by students of one who has had particularly high marks and who when elected must keep records of books and work closely

67-376

with the English Department of the school. They mentioned that the office was considered an honor in the class.

It was explained further that GALE was a member of the baseball team during his third year and that he had been a member of the printing club during his second, third and fourth years in school, also that in the fourth year, he had been elected Secretary-Treasurer of this club.

NEIGHBORHOOD INVESTIGATION

AT LAKEWOOD, OHIO.

Mrs. HELEN MONDAK, 1452 Olivewood Avenue, Lakewood, Ohio, who lives in the house north of GALE's house, upon interview stated that she had known the applicant for about three years. She stated that she had a boy about the same age as the applicant, who graduated from school at the same time GALE graduated, but that the boys do not go around much together, as GALE is one who stays home most of the time. She stated that the GALES do not own their home but are renting it and have lived there for about four years.

Mrs. MONDAK further stated that Mrs. GALE is not a woman who calls on the neighbors, as she stays home most all of the time, and that the family also had a daughter who was one year older than JAMES GALE and a small son named JACKIE GALE, who was in about the third grade at St. Clement's School near there. She also mentioned that she had never known the father nor applicant to ever take a drink and that she knew the father as being a good man.

Mrs. MILDRED FOOS, 1443 Olivewood Avenue, Lakewood, Ohio, who lives across the street from the GALES, stated that she knew the mother very well and the rest of the family but slightly. She said that the family had lived there for four years, as they had moved in just a month before the FOOS family moved into their residence.

Mrs. FOOS further stated that from what she knew of the boy, he was a good boy and stayed home quite a bit of the time. She said they were a very deserving family and were

67-376

now perhaps in need of all the help they could get, as the father had just returned from the Mayo Clinic at Rochester, Minnesota, where he had undergone some physical examination which took approximately six weeks, as he had been away that long. Mrs. FOOS stated that she had never known JIM GALE to be in any trouble.

JAMES J. MORRISON, 1462 Olivewood Avenue, Lakewood, Ohio, who lives in the house south of the applicant's home, stated that he had known the family for about four years and that they were a family which stays at home most of the time and have a good reputation in the neighborhood. He does not know of any trouble in which the applicant may have been involved, as he is free from promiscuous associates, does not drink and has no tendencies of this nature.

Mr. MORRISON stated that he knows that GALE is fond of baseball, as he has seen him playing catch in the yard a number of times and has seen him with a manager of a baseball team, whose name he did not know. He further stated that he had observed GALE studying in his room as late as 1:30 AM, as he had to do his studying after coming home from work at the drug store, which closed about 10:30 PM or 11:00 PM in the evening. He knew that the boy was a hard worker, that he bought his own clothes and that his honesty was unquestionable because of his contacts with the boy and observation.

Mr. MORRISON stated that he had heard that the boy was not satisfied with his present employment, as it was not the type of work that he cared to do, and that he was looking for another position. MORRISON stated that the Clementine Club, to which GALE belongs, is a Catholic club within the church and is of a religious and literary nature. He has never heard of the Peace Club of Lakewood.

Continuing, Mr. MORRISON advised that the father of GALE had not been well lately, as he had been at Rochester, Minnesota, to the Clinic there, for an ailment which he believed to be bladder trouble. His condition is much improved since his return, according to MORRISON.

Mrs. JOHN A. GUNN, 1428 Olivewood Avenue, Lakewood, Ohio, upon interview advised that she was the wife of a

67-376

retired druggist and that her son, DANIEL GUNN, is a very close associate of JIM GALE. She stated that she had been advised that GALE had made application for some sort of a government position and that he is a good cleancut boy of good morals, as she would not permit her son to go with him if he were not of good character. She stated that GALE is neat in his appearance and is a hard worker. The family is highly respected and very deserving, according to Mrs. GUNN. She stated that the father had not been very well and that she thought it was fine that JIM GALE had obtained his present position in order that he might help out. She recommended him highly for any position he might be seeking.

[redacted] age 16; [redacted]
[redacted] Lakewood, Ohio, who works evenings at the Ratner Pharmacy and who is a very close associate of GALE, stated that he had known GALE for about four years or more and he had never known him to be in any trouble. He stated that GALE does not smoke or drink and that he was very neat in his habits and appearance. [redacted] thought he was a fine fellow. b6

[redacted] was unable to furnish any information regarding the Peace Club of Lakewood, Ohio, of which GALE is a member. He stated that he did not know that GALE belonged to such an organization and that he personally is not a member of it.

AT PARMA, OHIO.

At 10000 Ridgewood Drive, Parma, Ohio, the present occupant advised that she did not know the family but had heard of them and referred the writer to Mrs. J. A. GILCHRIST, the 6500 block on York Road, Parma, Ohio, which is the farm adjoining the above address.

Mrs. GILCHRIST, upon interview, advised that GALE formerly lived at 10000 Ridgewood Drive in the rear of the house, when her brother, A. J. McCREA, lived there a few years ago. It may be noted that both of the above addresses are small farms in the suburbs with fine buildings and could be considered small estates. She thought that GALE "sort of looked after things" for McCREA. She did not know the family

67-376

very well. McCREA is the present employer of GALE and the applicant, as he is in charge of the Ohio Provision Company, 2254 West 61st Street, Cleveland, Ohio, which is a large packing plant which handles meats, etc.

AT CLEVELAND, OHIO.

At 10916 Parkhurst Drive, Cleveland, Ohio, which was also supposed to have been a former residence of the GALE family, it was determined that the present occupant was ALBERT ROSE, but no one was at home. The next door neighbor, ALBERT DUBRAY, 10912 Parkhurst Drive, stated that he had never heard of the GALE family and that most of the persons in the immediate neighborhood were new residents. No further inquiries were made in view of this fact.

At 4026 West 166th Street, Cleveland, Ohio, the occupants advised that they had never heard of the GALE family and referred the writer to CHARLES HOYER, who lives across the street and he advised that he had lived at this address twelve years and had never heard of the GALES.

At 1305 West 64th Street, Cleveland, Ohio, another alleged former address as furnished by the Credit Bureau, it was determined that there is no such number, however, the occupants at 1309 stated that they had lived there three years and had never heard of the GALE family. The occupants at 1310 had lived there seven years and had never heard of them. No further inquiries were made.

At 3175 West 111th Street, Cleveland, Ohio, Mrs. V. C. JOHNSON advised that she had lived there eight years and had never heard of the family.

Mrs. A. F. HILD, 3178 West 111th Street, who lives across the street, advised that she had lived at this address six years and did not recall knowing the family. She further stated that all of the other neighbors were new, having moved there since she had moved to the neighborhood.

At 1458 West 58th Street, Cleveland, Ohio, Mrs. J. P. HUGHES advised that they had lived at this address for the past eleven years and she did not know the GALE family.

P. J. JUDGE, who lives at 1456 next door, stated that he did not know the GALE family. Occupants of 1449

67-376

across the street advised that they had lived in the neighborhood for four years and did not know the GALEs.

It is to be noted that the GALE family has been living at their present address at 1456 Olivewood Avenue, Lakewood, Ohio, for the past three or four years and previous to that lived at 10000 Ridgewood Drive, Parma, Ohio, as early as 1933, and may have been there previous to this time. The family lived at the various Cleveland addresses previous to the Parma residence, as the school records indicate the change of address in this manner.

FORMER EMPLOYER

AT LAKEWOOD, OHIO.

JEROME S. RATNER, better known as JERRY RATNER, 2135 Eldred Avenue, Lakewood, Ohio, who is owner and manager of the Ratner Pharmacy located at 14239 Detroit Avenue, Lakewood, Ohio, advised upon interview at the store that JAMES GALE worked nights for him as a fountain clerk at various times between 1937 and 1939 and occasionally he will work for him now when called upon to help out but he has not needed him for the past three months.

Mr. RATNER stated that he found GALE to be a good worker, neat and clean about his appearance and work, very honest and very much interested in sports, especially baseball and football. He stated that at times GALE had shown quick temper when the boys in the store would joke with him about what a poor team so and so had or what a poor player so and so was and it would seem to make GALE angry but he would control his emotions fairly well, although he knew the statements were not so.

Continuing, Mr. RATNER said that GALE came to Cleveland, Ohio, from Parma, Ohio, which is a suburb of Cleveland, and he believes his first position was with him in the drug store, except that he formerly sold papers on a route for the Cleveland Plain Dealer.

Mr. RATNER advised that he had been told that GALE had made application for some sort of a government position but he did not know the type of work he had applied for. GALE, he stated, wanted to get a steady position.

67-376

Mr. RATNER further advised that he knew the GALE family very well and that they are fine people. The father, he explained, works in a meat packing plant in the office. They have three children and are quiet, modest and sensible people, according to RATNER.

Mr. RATNER stated that he thought GALE was employed a short time by the Taylor store doing fountain work. He believes that he obtained his position through the Ohio Unemployment Compensation Bureau, Cleveland, Ohio.

Mr. RATNER also stated that [redacted] Lakewood, Ohio, was a very close friend of GALE and that [redacted] was at the present time employed at the drug store evenings. b6

AT CLEVELAND, OHIO.

The records of the Ohio Bureau of Unemployment Compensation, 1242 West 3rd Street, Cleveland, Ohio, made available through the office of LEO J. (Signed) James Gale

J. J. GALVIN, Assistant General Superintendent
of the William Taylor and Sons, department store, 630 Euclid
Avenue, Cleveland, Ohio, was interviewed and produced records
indicating that on July 10, 1939, JAMES HENRY GALE had entered
their employment, however, he was only given work a day or
so at a time. He worked at the soda fountain in the store.
The last time he worked for them was on July 22, 1939 and he
has not been called since, as they had no work for him.

Mr. GALVIN indicated that GALE was employed only
during "rush" times. GALVIN stated that his records indicate
that GALE was born on September 28, 1920. He further advised
that it is the customary procedure for each applicant to fill
in his own application and he believes that the instant appli-
cation was no exception to the general procedure.

67-376

On the application, GALE had given one J. P. HOGAN of the Ohio Provision Company as a reference. Other references were E. M. BURBANK, 1488 Robinwood Avenue, Lakewood, Ohio, and PHILIP KERRIGAN of the City Hall, Cleveland, Ohio.

GALVIN advised that he would re-employ GALE if he had work for him in that department.

PRESENT EMPLOYER

AT CLEVELAND, OHIO.

ALEX J. McCREA, Vice President of the Ohio Provision Company, 2254 West 61st Street, Cleveland, Ohio, during a discreet interview, advised that JAMES H. GALE, Senior, had been with the firm for over twelve years and that he was employed in the office there but lately he had been ill but was expected back to work in a few days.

Mr. McCREA advised that the father of GALE, Senior, had worked for them many years ago and that the whole family were "good packing house people," indicating that they knew the business very well. GALE, Senior, was formerly with the Cleveland Provision Company which is no longer in business, according to McCREA.

Continuing, Mr. McCREA stated that JAMES GALE, Junior, had been employed with the firm for approximately six months. At the present time, he explained they are just trying to teach him the business and he is now working in the order department. They expect that he will continue his work there, as there is a good chance for advancement, according to McCREA. He stated further that the boy was punctual and tries hard to learn and that he is getting along very well. McCREA thought the family was of Irish descent.

He indicated that in the event that JAMES GALE, Senior, was not well when he came back to work, they would give him some sort of work that he could do, regardless of what it was, as they thought quite a lot of him and offered to loan him money recently, but did not say whether GALE had

67-376

accepted the offer or not. No inquiry was made to arouse McCREA's suspicion as to the purpose of the inquiry, as it might be embarrassing to the applicant.

Miss ELENOR ROSEBERRY, 517 Cleveland Plain Dealer Building, Cleveland, Ohio, searched the newspaper morgue files in the library of the above newspaper for possible information on the Peace Club of Lakewood, Ohio, of which GALE is a member, with negative results. She exhibited newspaper clippings dated July 3, 1927, which indicated that the American Peace Society of Cleveland, Ohio, was having a dinner. Congressman THEODORE E. BURTON was given as the president of the above society in the clipping. It further stated that the society was 100 years old and was directed toward peace and encouraging international good will.

GORDON GRAY, Manager of the Cleveland Retail Credit Men's Company, 500 National City Bank Building, Cleveland, Ohio, stated that he could not furnish any information regarding the Peace Club of Lakewood, Ohio, as he had never heard of it.

The following description of JAMES HENRY GALE was obtained as described by DANIEL MCKENZIE GUNN, his closest associate, also from information furnished by other sources:

*For males, to be taken only upon special written request of the official ordering examination.

This report is to be returned to the official of the U. S. Civil Service Commission requesting the examination

The aim of the Executive order of Sept. 4, 1924, and of this examination thereunder is to obtain information as to the physical condition of appointees to classified civil service with a view to promoting efficiency and minimizing accidents and claims under United States employees' compensation laws.

NOTES FOR EXAMINING PHYSICIAN

WEIGHT.—Males, without clothing, and also in ordinary clothing without overcoat or hat (weigh twice); females, clothed, but without wrap or hat. If overweight, state whether due to bone and muscle or to fat.

HEIGHT.—Without boots or shoes; observe that no appliances are used to increase.

The examination should include the following observations, as to—

1. **EYES.**—Ptosis; discharge; corneal scar; pterygium. In recording distant vision consider 20 feet as normal and report all vision as a fraction with 20 feet as numerator and the smallest type read at 20 feet as denominator. If glasses are used, record for each eye the finding with and without glasses.*

2. **EARS.**—Evidence of middle ear or mastoid disease; condition of drums; discharge. In recording hearing, record 20 feet as normal distance for conversational voice and record deviation from normal as fraction with 20 as denominator and actual distance as numerator.

3. **NOSE.**—Ability to blow through each nostril. If free, a speculum examination would not be indicated.

4. **MOUTH.**—Missing teeth, pyorrhea.

5. **THROAT.**—Tonsils, hypertrophy or disease.

6. **THYROID.**—Presence of tumor in neck and tremor, exophthalmos; nervous high-strung disposition, especially in women.

7. **HEART.**—Murmurs. State whether functional or organic. If valvular disease exists, state whether or not it is fully compensated.

8. **LUNGS.**—It is necessary that the auscultatory cough be used. Tuberculosis; if present, state whether active or arrested, and if arrested your opinion as to how long it has been quiescent. Sputum to be examined for tubercle bacilli in all suspected cases.

9. **INGUINAL RINGS.**—Hernia; no hernia, but impulse on coughing; no hernia or impulse, but abnormally large rings. Any other hernia should be noted, and if present describe fully and state whether it is retained by well-fitting truss.

10 to 13. Scars, deformities, atrophies, paralyses, or flat foot of such a nature as to incapacitate or become aggravated by work or be later alleged as caused by accident or occupation. By "flat foot", as used in this form, is meant a foot with impaired function, the term being equivalent to "fallen or misplaced arch", an abnormal condition. Impairment of function is the point to be noted. It is not intended that small, insignificant blemishes which might be referred to as marks of identification be recorded.

14. This entry should include symptoms and full history of any mental or nervous abnormality.

15. Urinalysis to be made and blood pressure to be taken when especially indicated, particularly in persons over 40 when arteriosclerosis, nephritis, or diabetes is suspected.

Record, if taken—Urinalysis—sp. gr. 1020 Albumen none Sugar none Casts _____

High School Graduate

EDUCATION

Pearl Road School, Parma, Ohio,
1930-1933

Miss Stroud, Principal, stated applicant entered about 1932 or 1933 and was there but a short time as he was transferred to the Henry J. Schaff Junior High School,

(below), which school takes care of the students after they leave the sixth grade. Miss Stroud stated applicant's work was satisfactory and he was rather well liked in the school; however, he was a little rough at times while on the school bus but that he gradually became better in his conduct.

Henry J. Schaaf Jr. High School,
Parma, Ohio, 1933-1935, 7th & 8th
Grades (not on appl.)

No record of applicant at this school. Records of the Board of Education reflect the following grades for applicant during the two years: 3 D's (passing but not satisfactory), 10 C's (average), 2 B's, and 1 C marked over with

letter E, which indicated a failure in this subject. However, records of Emerson Junior High School (below) contain a transcript of applicant's grades which reflects he received 2 F's (Fair), 2 G's (Good), and 1 E (Excellent). Miss Needham of the Emerson Junior High School advised that the "E" did not indicate failure as shown on the records of the Board of Education but indicated "Excellent". Records of the Board of Education also reflect applicant attended school 134 days in his 9th year at the Henry J. Schaaf School, of which he was absent 12½ days, and because of the short period, there was no record of his subjects in the 9th grade.

Emerson Junior High School, Lakewood, Ohio, 1933-1936 (as on appl.)
of 116, the average being between 110 and 120. Applicant received 2 C's, 1 B, 1 A, and 2 Satisfactory grades.

Records reflect applicant entered on April 14, 1936 in the 9th grade and attended 44 days. Records reflect applicant was a fairly good pupil, having an intelligence quotient

Lakewood High School, Lakewood, Ohio, 1936-1939

Applicant graduated ranking 130th out of 522 students. Records reflect applicant received 2 A's, 3 B's, and 2 C's (average). Mr. Meeks, Assistant Principal, stated

applicant was above average. Two merit cards signed by Mr. Champion, teacher of printing, regarding applicant, indicated that he was a faithful worker, dependable, of excellent character and fair leadership. Mr. Bortner, Home Room teacher, stated applicant had a better basic moral foundation than the average boy of his age.

EXPERIENCE

Ratner's Pharmacy, Lakewood, Ohio,
Clerk, June 1936-June 1939

Mr. Ratner, owner and manager, a reference, stated applicant worked at various times between 1937 and 1939 and occasionally he will work for him now when called upon to help out but he has not needed him for the past three months. Mr. Ratner stated applicant was a good worker, neat and clean about his appearance and work, very much interested in sports, especially baseball and football. He stated that at times applicant had shown quick temper when the boys in the store would joke with him about what a poor team so and so had or what a poor player so and so was and it would seem to make applicant angry but he would control his emotions fairly well, although he knew the statements were not so. Mr. Ratner stated applicant formerly sold papers on a route for the Cleveland Plain Dealer (not investigated).

William Taylor and Sons, Cleveland, Ohio, Soda Fountain, July 10-22, 1939
(not on appl.)

Mr. Galvin, Assistant General Superintendent, stated applicant was employed only during "rush" times. He stated he would re-employ applicant.

Ohio Provision Co., Cleveland, O.,
Laborer, since Aug. 1939

Mr. McCrea, Vice President, a reference, stated applicant tries hard to learn and that he is getting along very well

Mr. McCrea and Mr. Ratner speak highly of applicant. Messrs. Hogan, Kerrigan and Connolly were not interviewed.

RELATIVES IN GOVERNMENT SERVICE

None.

MISCELLANEOUS

Neighborhood investigation and other persons interviewed

Favorable. Mr. Morrison, a neighbor, stated applicant's father had not been well lately, and he believed he has bladder trouble. Teletype dated Oct. 30, 1939 advises

the October 30 issue of Cleveland Plain Dealer newspaper contained an article relating that applicant's father died the night before after slashing his throat with a straight razor in the bathroom of his home, and that he recently returned from the Mayo Clinic, Rochester, Minn. where he underwent treatment for heart ailment.

Born Sept. 28, 1921, Cleveland, O.

Records of Board of Education and the Emerson Junior High School reflect applicant was born Sept. 28, 1921;

however, records of Ohio Bureau of Unemployment Compensation and the William Taylor and Sons reflect applicant was born Sept. 28, 1920.

Personal Interview with SAC
E. P. Guinane

States applicant is only 18 years of age, but appears older than this, makes a good appearance, is possessed of a pleasing personality and impressed Mr. Guinane as

being quite intelligent and one who, with experience, would be an excellent employee. He has taken shorthand, but did not feel like he could take the test at this time, but states that he can take shorthand at sufficient speed to take letters. Recommendation - Favorable.

OUTSTANDING ENDORSERS

None.

Applicant's physical report shows his eyes as normal without glasses and he is recommended for arduous physical exertion.

RE: JAMES HENRY GALE, TYPIST,
Special Efficiency Report.

Dear Sir:

These comments are being submitted in view
of my transfer from this office.

This employee entered on duty on November 29,
1939, as a temporary typist.

GALE makes a good appearance, and is an ex-
tremely sincere, industrious worker, more than anxious to
learn the new work as rapidly as possible. I have had him
typing rough draft reports, and he has turned out an excellent
volume of work in a very neat manner. Of course he is
inexperienced at this time, but I believe that as soon as
he has had additional experience he will make an excellent
employee.

Very truly yours,

Re: JAMES H. GALE;
Temporary Typist

Dear Sir:

Reference is made to Bureau letter of November 28, 1939, authorizing the employing of the above named temporary typist "with a salary at the rate of \$1440 per annum", for 45 days with a view to permanent appointment, under Fiscal Control Number 14345.

In view of past procedure in paying salaries of temporary employees, the wording of reference letter has raised a question regarding the proper making of voucher 5 $\frac{1}{2}$ DC to reimburse Mr. Gale for work performed from December 1 to 15, 1939, i. e., whether to submit a voucher in the amount of \$48.00 (\$4.00 per day for twelve days actual work performed), or \$60.00 (one-half month at \$1440 per annum).

There are forwarded herewith two vouchers, one in the amount of \$48.00 and the other in the amount of \$60.00, and it is respectfully requested that the correct voucher be passed for payment, and that the Bureau advise this office the correct procedure in submitting these vouchers, so that this information may be available for future guidance.

Dear Sir:

Reference is made to your letter of December 22, 1939, enclosing a voucher for Mr. James H. Gale, a temporary Typist in your office, for the period December 1st to 15th, informing that Mr. Gale worked on December 11th.

Inasmuch as the voucher previously prepared in this office for Mr. Gale was for only fourteen days and was in the amount of \$56.00, an additional voucher has been prepared by the Bureau in the amount of \$4.00 for services performed by Mr. Gale on December 11th.

Dear Sir:

Reference is made to Bureau letter of December 20, 1939 (Bureau file 67-137786) concerning voucher for reimbursement for services of Mr. James H. Gale, temporary typist. The Bureau's instructions as set out in reference letter and reflected on the sample voucher forwarded have been noted. However, the Bureau was erroneously informed in our letter of December 16, 1939 that Mr. Gale did not work on December 11, 1939, caused by the fact that this date was inadvertently confused with November 11, which was a holiday (Armistice Day). Therefore, there is a total amount of \$60.00 due to Mr. Gale.

Since the voucher which is being prepared at the Bureau, as mentioned in the last paragraph of reference letter, will be made in the amount of \$56.00, and since it will no doubt be necessary to forward that voucher to Cleveland for signature before payment can be made, in order to avoid delay, there is enclosed herewith a voucher in favor of Mr. James H. Gale, correctly executed in the amount of \$60.00, which it is requested be passed for payment.

Dear Sir:

Reference is made to your letter of December 16, 1939, enclosing two vouchers for Mr. James H. Gale, a temporary Typist in your office, for the period December 1st to 15th, and requesting that the Bureau advise you as to the correct one to be used in securing reimbursement for Mr. Gale.

In this connection your attention is called to the Bureau's letter of June 26, 1939, directed to all Special Agents in Charge outlining certain information in connection with the preparation of 5½ D. C. vouchers. In this letter the following information was stated:

"In the future such employees will be paid on a per annum basis for each salary period, i.e., the first to the fifteenth of the month inclusive and the sixteenth to the thirtieth or thirty-first inclusive:

Grade CAF 3, \$1620 per annum, \$67.50 (\$4.50 per day)
Grade CAF 2, \$1440 per annum, \$60.00 (\$4.00 per day)
Grade CU 3, \$1200 per annum, \$50.00 (\$3.33 per day)

Payment should be made for all Sundays and holidays irrespective of whether or not the employee performs duties. However, if the employee does not work each week-day during a salary period, an appropriate deduction should be made for those days for which services were not performed.

Per annum employees are paid on a 30-day basis, and therefore payment is not made for the thirty-first day of the month, although leave is charged for that day if services are not performed."

The enclosed voucher is returned for your guidance in the preparation of vouchers for temporary employees. It will be noted that Mr. Gale is being paid for only fourteen days, receiving

Special Agent in Charge

the total amount of \$56.00, inasmuch as it appears that he did not work on Monday, December 11th.

In the future all vouchers emanating from your office should, therefore, be prepared on a per annum basis.

A new voucher has been prepared in this office for Mr. Gale covering the period from December 1st to 15th.

Re: JAMES HENRY GALE;
Typist.

Dear Sir:

Reference is made to Bureau letter dated December 6, 1939, Bureau file #67-137786, requesting that final recommendation concerning the permanent appointment of JAMES HENRY GALE, temporary typist, be submitted not later than January 10, 1940.

Mr. GALE entered on duty as a temporary typist in the Cleveland Office on November 29, 1939. According to the special efficiency report rendered by Special Agent in Charge E. P. Guinane, it was his opinion that as soon as Mr. GALE had additional experience, he would make an excellent employee.

Since my arrival in Cleveland several weeks ago, the following constitutes my impression of Mr. GALE:

Although he is quite young and immature, as well as necessarily inexperienced, he does make a good appearance, is sincere, ambitious and more than anxious to learn the work of the Bureau, which is entirely new to him, as rapidly as possible.

Mr. GALE has been typing rough draft reports, as well as transcribing a number of Ediphone records and has consistently turned out a volume of work in a neat manner. It is obvious that he puts in a large amount of over-time, in order that he may become as familiar as possible with the duties of typist in the shortest space of time.

REMARKS

SAC Listerman advises that this employee, while only possessing a high school education, is loyal, ambitious, and has been developing satisfactorily and puts in a large amount of overtime. His rating of fair, was due to his lack of experience.

SAC Guinane on December 12, 1939, states that this employee turns out an excellent volume of work but is inexperienced.

SAC Listerman on January 8, 1940, states this employee puts in a large amount of overtime and despite his inexperience and immaturity makes a good appearance and is learning rapidly.

RECOMMENDATION

No change in salary is suggested at this time.

This employee entered on duty in a temporary capacity on November 29, 1939, and received his permanent appointment as of January 29, 1940.

Mr. Gale always has a neat personal appearance, has a good personality and ability to get along with other employees. Although he has only a high school education, is youthful and inexperienced in worldly ways, he has continued to demonstrate loyalty, ambition, sincerity of purpose and eagerness to learn.

He has been engaged in typing rough draft reports, transcribing Ediphone records, preparing index cards, and more recently assisting the chief clerk in filing and general clerical duties. He performs neat and satisfactory work, puts in a large amount of overtime and is developing satisfactorily, but due to his inexperience is given a rating of Fair.

Re: [redacted]

b6

Dear Sir:

As the Bureau is aware, Miss [redacted], Chief Clerk of the Chicago field division, has been in this office on special assignment since September 15, 1941, for the purpose of revising the administration of the Chief Clerk's office. Attached is a memorandum submitted by [redacted] concerning the conditions noted in the Chief Clerk's office by her.

As a result of a series of conferences held with Miss [redacted] I decided to relieve [redacted] of his duties as Chief Clerk. It was apparent that Mr. [redacted] lacked the ability to supervise the work of the other clerks assigned to the Chief Clerk's office. He also failed to accomplish the volume of work that could be reasonably expected of a Chief Clerk. His overtime was better than average but he lacks the ability to coordinate his activities. Mr. [redacted] is enthusiastic and loyal, but as above indicated, is incapable of acting in a supervisory capacity.

b6

In observing the respective abilities of the other clerical employees I decided that the best prospective candidate for Chief Clerk is James Gale. With the assistance of Miss [redacted] and Mr. Gale I have outlined the duties to be performed by the clerks in the future. Several changes have been made, as outlined in the attached memorandum.

[redacted] efforts were very effective and I consider her to be a very capable Chief Clerk. Considerable

progress has been made in this office since her arrival, and I believe that James Gale will be able to keep the Chief Clerk's office in proper shape in the future.

I plan to observe Mr. Gale's activities as Chief Clerk for a period of from sixty to ninety days, and in the event he appears to be capable of directing the activities of the Chief Clerk's office I then plan to recommend that he be designated Chief Clerk.

Dear Sir:

It has been observed by the writer, while acting in the capacity of Assistant Chief Clerk in the Cleveland Field Division, that considerable time is lost in the dismantling of voluminous reports for perforating purposes. Upon the receipt of such reports typed in this Division as well as those received from other offices, it is necessary for the Chief Clerk's Office to pull the staples from the report and place from 25 to 30 pages at a time in the perforator until the report has had holes punched in and then it must be re-stapled before it can be filed.

In view of the time lost because of the above-described procedure the writer wondered if it would be possible for the Bureau to obtain paper which already has the usual perforations without increasing the cost of this paper to a prohibitive degree.

Very truly yours,

J. H. Gale,
Typist.

Re: MONTHLY ADMINISTRATIVE REPORT

Dear Sir:

It has been my observation in preparing the monthly administrative report that there is considerable duplication of effort in determining the number of new cases received during the month and also the number of cases pending at the end of the month. It is necessary to go through the assignment cards once in an endeavor to ascertain the number of new cases received during the month, and it is again necessary to go through the assignment cards to determine the number of cases pending at the end of the month.

The writer believes that a considerable amount of time and effort could be saved if during the month the assignment cards were made out in triplicate rather than in duplicate, and the third assignment card maintained in the Chief Clerk's Office. Then at the end of the month it would merely be necessary to count these cards in an effort to ascertain how many new cases were received during the month, which figure is placed in Column 7, Page 2 of the monthly administrative report. It would then merely be necessary for the clerk preparing the administrative report to go through the assignment cards to get the appropriate figures for Column 10, Page 2 of the monthly administrative report which are cases pending at the end of the period.

The above procedure would not only save considerable time in the preparation of the report but it would also serve to make this report less complicated and reduce the possibility of error. The triplicate cards would, of course, be destroyed at the end of the month. The argument will probably be brought out that there will be considerable time lost in making the three assignment cards. However, the writer does not believe that the time taken in preparing the assignment cards in triplicate would amount to very much.

Director

February 6, 1942

It is further believed by the writer that even if the time spent in making out the assignment cards in triplicate was as much as the time saved by eliminating the additional count of the assignment cards at the end of the month, the suggestion made still might have merit inasmuch as time is absolutely of the essence in preparing the monthly administrative report.

The writer will appreciate the Bureau's advice as to whether or not it believes this suggestion has any merit.

Dear Sir:

It has been my observation in preparing new cases that the breakdown on FD-71, which is the new case form, is not sufficient and I am therefore attaching a sample of a new case form which in my opinion would be more conducive to maximum efficiency.

A great deal of time is often wasted by the individual opening cases inasmuch as he is required to read a long paragraph under the heading "Details" in order to ascertain the name of the informant for indexing purposes. It is therefore, suggested that the informant's name be set up below the subject's name as shown in the attached example.

Inasmuch as it is necessary to place the town or city where investigation is contemplated in the lower left hand corner of the assignment card, it is often again necessary to read the details to ascertain the name of the town where investigation is to be conducted. It is, therefore, suggested that a separate breakdown for the town where investigation is contemplated be placed on the new case form along the lines set forth in the attached example.

It has been further observed that there is a tendency on the part of the agents to omit this vital information and it is believed that the suggested form would call their attention to the fact that this information was desired. This, of course, would save the clerk considerable time and minimize the possibility of error.

Very truly yours,

While talking to SAC Boardman concerning other matters he stated that he was having quite a problem regarding the position of Chief Clerk in the Cleveland Office. He said at the time Mr. Egan made the inspection of the Cleveland Office Mr. Egan did not think that [redacted] could handle the position. Accordingly, James Gales was designated Acting Chief Clerk and it was thought that he could possibly handle the duties efficiently. James Gales has operated as Chief Clerk for the past two and one-half months, but he is attending law school and is very desirous of becoming an Agent in the Bureau, and with all of his various duties he is presently in a highly nervous condition, losing weight, is jumpy, fidgety, and his doctor has advised him that it will be necessary for him to take things easy. Mr. Boardman said that Gales had worked hard but apparently he was just worrying about his duties too much and it was getting the best of him.

Mr. Boardman said that he has tried just about everything and everyone in the Cleveland Office for the position of Chief Clerk, and he just doesn't feel that he has anyone there who is qualified to take care of the duties. He said that [redacted] was an excellent stenographer and worked very hard and could take care of the details, but he was just unable to take care of the administration of the office, and especially employees under him. At the present time there are eleven clerical employees in the Chief Clerk's Office and in view of Gales' condition Mr. Boardman stated he thought he would have to bring [redacted] back but he just didn't think he would work out.

It was Mr. Boardman's suggestion that possibly the Bureau might have in mind some employee in one of the other offices who was not presently Chief Clerk, but who had had the training in an office and had also attended the Chief Clerk's Conference held at the Bureau. I advised Mr. Boardman that if he had any suggestions concerning anyone for the position of Chief Clerk in the Cleveland Office he should communicate with the Bureau. I also advised Mr. Boardman that I would bring this matter to your attention for whatever action you desired to take.

Respectfully,

J. P. Mohr

Director
Federal Bureau of Investigation
Washington, D. C.

Dear Sir:

Confirming my telephone conversation with Assistant Director W. R. Glavin December 5, 1941, I wish to advise I received a memorandum dated November 28, 1941, from acting Chief Clerk J. H. Gale reflecting the results of a conversation between Mr. Gale and Joseph DeGenaro, elevator operator, Standard Building, copies of which memorandum are attached.

In questioning Mr. Gale concerning this matter, he stated that upon several occasions in the past Joe has commented at times on the large number of hours of overtime that he, Gale, was performing. Mr. Gale stated that he had always ignored the elevator operator's comments in the past and that until the recent conversation he had gained the impression that the elevator operator was merely trying to make conversation because of the monotonous job he had in running the elevators. Mr. Gale stated that Joe had always appeared to be very friendly and that he had, until the recent conversation, felt that Joe was merely garrulous. I deemed it advisable to immediately confer with the various employees of this office for the purpose of determining whether any other employees had been approached by this individual with similar comments.

I first separately interviewed the following clerical employees: [redacted]

[redacted] In each instance I was informed that they had observed that the elevator operator was very friendly and courteous. They recalled that the elevator operator had on one or two occasions observed that they were working hard and had made comments to the effect that we must be performing a lot of overtime. These employees informed me that they had never made any comments to the elevator operator as they felt he was inclined to be garrulous, although friendly. They stated that they had paid practically no attention to him. b6

Director

December 16, 1941

I then held a conference of all clerical employees at 5:00 p.m. December 2, 1941, and discussed this situation with them. At least half of the employees informed me that they had observed this elevator operator to be friendly and talkative. They did not consider him to be malicious and felt that what comments he made were made in an effort to be friendly. One or two recalled having heard DeCesare make a remark that we should have a dormitory in our space so that the employees would not have to bother to go out of the building to eat or sleep. They all separately informed me, in response to my question, that they at no time had any discussion with the elevator operator concerning the work of the Bureau.

I thereafter discussed this situation with several of the agents individually and in addition held an agent conference on December 5, 1941, at 5:00 p.m. at which time instant matter was discussed. None of the agents recalled ever having discussed any matters concerning the Bureau with DeCesare and none of them recalled that DeCesare had ever attempted to engage them in conversation concerning the work of the Bureau. One or two of them recalled hearing DeCesare complain about the number of hours overtime he, DeCesare, had to perform. The general consensus of opinion among the agents was that this elevator operator is a harmless, garrulous individual who, for lack of anything else to do, attempts to be friendly by making comments and observations.

I personally have observed that this elevator operator has complained about the overtime he is required to perform which is, I understood him to say, about five hours per week more than any of the other elevator operators. He does not receive any compensation for this overtime performed by him. He has at no time ever made any comments to me that would reflect he has an adverse attitude concerning the Bureau.

I definitely felt incensed at his observations to Mr. Gale, however, and deemed it advisable to discuss instant matter with [redacted] building manager, Standard Building. After discussing this matter with Mr. Glavin it was decided that I would not question Joe DeCesare but would instead discuss instant matter with [redacted] I asked [redacted] about [redacted] and was

b6

Director

December 16, 1941

b6

advised that Joe DeCesare has been employed by the Standard Building since August 15, 1941. He stated that DeCesare claims to have been born in New York City. He is of Italian extraction and has resided in Cleveland and vicinity for the past twenty years. According to the Standard Building records DeCesare's previous employment was April 15, 1941, to June 1, 1941, as an elevator operator in the Union Commerce Building from June 1 to August 15, 1941, as an operator in the Leader Building. The records further reflect that he is 36 years of age, married, with two children. [redacted] stated that DeCesare's employment has been satisfactory.

b6

I informed [redacted] that it had been brought to my attention that DeCesare was making comments and observations with I thought were entirely unnecessary and that I did not like having elevator operators making such observations. [redacted] stated he would be more than happy to transfer DeCesare to one of the other buildings owned and operated by the Brotherhood of Locomotive Engineers, Inc., which company owns the Standard Building. I informed [redacted] that I considered it advisable for this individual to be transferred and [redacted] then indicated this would be done.

As a result of my inquiries I am certain that none of the Bureau employees has complained to the elevator operator concerning overtime. It is highly unlikely that any employees would have any occasion to discuss any matters with an elevator operator.

With reference to DeCesare's observation to the effect that we had lost a great number of stenographers recently because of overtime, I wish to advise that this statement is entirely incorrect. We have lost no stenographers because of any complaints on overtime at any time since my arrival in this division, and I am not aware of our losing any employees prior to my arrival. I have received absolutely no indications to the effect that any of the employees were complaining because of overtime. In fact, I am certain that the employees assigned to this office are anxious to work as much overtime as is consistent with good health, and I feel that there is a splendid esprit de corps in this office. No further action is being taken on this matter unless contrary instructions are received from the Bureau.

Very truly yours,

L. V. Boardman
Special Agent in Charge

MEMORANDUM FOR THE SAC:

On November 27, 1941, while the writer was returning to the office from Law School, I happened to engage in conversation with an elevator operator employed by the Standard Building. This individual's name is JOH, and he works the 12 to 9 shift. This individual made inquiry of the writer as to whether or not I was now going back to work. When the writer replied in the affirmative, he remarked that it was no wonder that Bureau employees were becoming discouraged and disgruntled, when they were required to work so late at night. I assured this individual that I was not required to work late at night; that this was purely voluntary on my part; and further that I was neither discouraged nor disgruntled.

I then made inquiry as to his source of information, and he stated that I knew as well as he did that many of the Bureau employees were becoming discouraged as a result of overtime. Continuing he stated that he knew that we had lost a great number of stenographers recently because of overtime. The writer then terminated the conversation by advising him that I did not have cognizance of the matters of which he spoke, and that he was grossly misinformed. Inasmuch as there is a possibility that some of the employees assigned to this office are giving outsiders a bad impression of the Bureau, I am submitting this memo for whatever action you deem advisable in the premises.

Respectfully submitted,

RECEIVED

April 27, 1942

Local Board Number 43
Selective Service System
1401 Detroit Avenue
Cleveland, Ohio

Gentlemen:

Reference is made to the Selective Service case of Mr. James H. Gale, who is duly registered at your Board. I desire to advise you that Mr. Gale has been employed as a Confidential Index and Files Analyst of this Bureau since November 29, 1939, and is still employed in that capacity.

In connection with this matter, I am transmitting herewith, D.S.S. Form 42-A executed by me under date of April 20, 1942, requesting that occupational deferment in Class II-B be granted to him. It will be noted that Mr. Gale is presently performing duties in a position which has been listed as critical to the effective functioning of this Bureau by General Hershoy of the National Selective Service Headquarters in a bulletin to all local boards under date of December 29, 1941.

I want you to know that it is my desire to cooperate to the fullest extent with your Board and, of course, I shall keep you promptly advised should there be any change whatsoever in the occupational status of this registrant with this Bureau.

Sincerely yours,

3. Any government appeal agent.
4. Any member or associate member of an Advisory Board for Registrants.
5. Any Postmaster.
6. Any other person authorized by the Selective Service Regulations to administer oaths.

No fee shall be charged by any person for administering the oath required on this form.

EXCERPTS FROM SELECTIVE SERVICE REGULATIONS

351. "Necessary man" defined.—A registrant shall be considered a "necessary man" in industry, business, employment, agricultural pursuit, governmental service, or in any other service or endeavor, including training or preparation therefor, only when all of these conditions exist:

- (a) He is, or but for a seasonal or temporary interruption would be, engaged in such activity.
- (b) He cannot be replaced satisfactorily because of a shortage of persons with his qualifications or skill in such activity.
- (c) His removal would cause a material loss of effectiveness in such activity.

352. Composition of Class II.—(a) In Class II-A shall be placed any registrant found to be a "necessary man" in any industry, business, employment, agricultural pursuit, governmental service, or any other service or endeavor, or in training or preparation therefor, the maintenance of which is necessary to the national health, safety, or interest in the sense that it is useful or productive and contributes to the employment or well-being of the community or the Nation.

(b) In Class II-B shall be placed any registrant found to be a "necessary man" in any industry, business, employment, agricultural pursuit, governmental service, or any other service or endeavor, or in training or preparation therefor, the maintenance of which is essential to the national health, safety, or interest in the sense that a serious interruption or delay in such activity is likely to impede the National Defense program.

353. Length of deferments for Class II-A.—(a) Class II-A deferments shall be for a period not longer than 6 months, at the expiration of which time the deferment shall cease. Upon the expiration of any such period, the case of the registrant shall be reopened and his classification considered anew in the manner provided in Section XXX, and, if the facts warrant, the registrant may again be classified in Class II-A for a further period not to exceed 6 months.

(b) Class II-B deferments shall not be limited as to the period during which they shall be effective. The case of a registrant classified in Class II-B may be reopened and his classification considered anew in the same manner and for the same reasons as any other classification. (See Section XXX.)

B. 2.

The Federal Bureau of Investigation has been designated as the sole civilian Government investigative agency, having jurisdiction over the investigation of matters pertaining to the national defense, that is, espionage, sabotage, registration of agents of foreign principals and the like. Further, the Federal Bureau of Investigation has sole investigative jurisdiction in a great number of other Federal statutes which embrace bank robbery, kidnaping, extortion, white slave traffic, the National Motor Vehicle Theft Act, and numerous others. The Federal Bureau of Investigation has also been designated by Congress as the agency officially responsible for the tabulation and dissemination of police statistics for the entire country. Under an Act of Congress these statistics are gathered and are distributed to thousands of interested police and affiliated agencies each quarter so that trends of crime, crime records, and crime control can be known to those to whom it is of most interest. Further than this, the Federal Bureau of Investigation has been designated as the agency having jurisdiction over the classification and maintenance of fingerprint records, not only on a national basis, but on an international basis. We have some thirty-one million sets of fingerprints on hand today. We are receiving the fingerprint records of all persons enlisted or being inducted into the Army and enlisted in other military services. Thousands of persons in public utility positions are fingerprinted and the prints are retained in our files. Those working in national defense industries on many occasions are fingerprinted, their prints being included in our files. Our Government employees' prints are included. We are receiving thousands of criminal fingerprints from all police agencies in the country daily and it is essential that we immediately be able to notify the arresting agency of the criminal record of the individual because he may be wanted for more serious crimes in other sections of the country and if he is to be released on a mere vagrancy or other charge, he may be set free to continue his depredations on society. This Bureau, together with many other foreign countries, participates in the international exchange of fingerprints. Hundreds of international crooks are brought to task yearly through the media of this service we have rendered.

Our Criminology Laboratory handles the scientific examination of evidence in cases investigated by the Federal and local law enforcement agencies. A great deal of their work is done in the examination of suspected sabotage cases at the present time. The scientists in that Laboratory have lectured throughout the country on bombs and explosives so that local police agencies may be adequately prepared to handle any such matters which might arise under their jurisdiction.

There are contained in our Files Section the files of hundreds of thousands of individuals whose activities are of the greatest importance to the country today. The work of the Files Section and the records of that section which have to do not only with the investigation of kidnaping, extortion, bank robbery, and like cases but also the investigation of our espionage, sabotage, foreign agent cases, and others, are of course accessible to employees working in that unit. It is most essential that only the most trusted employees be so assigned.

B. 5.

The work of the Federal Bureau of Investigation is of the utmost importance in the national defense. It is essential that thoroughly qualified personnel of the highest integrity and background be secured for every position in the Bureau. Our work is the guarding of the internal security of the country, not only in national defense matters, but in the control of those criminals who previously had terrorized the country in waves of bank robbery, kidnaping, extortion, white slavery, automobile theft, and numerous other crimes. There is no doubt whatsoever in the minds of law enforcement officials that should any group be permitted to have the assurance that their activities were being minimized during the present national emergency, we would have a tremendous country-wide wave of crime in that particular category in a very short period of time. It is, therefore, essential that from a national defense standpoint and from a public security standpoint the Bureau maintain its qualified staff at an absolute maximum in order to continue to have control of the criminal element under its jurisdiction.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

Subscribed and sworn to before me this 20th day of April, 1942

B. 7. a. b. c.

The Federal Bureau of Investigation is primarily a service agency. We serve our Government and the public. We cannot determine the amount of work which is going to be referred to us. If there is a crime wave of local or national significance at any time the work of the Bureau is increased in comparison. Our identification, laboratory, and crime statistics facilities reflect very definitely the trends in the country. We must have available personnel to properly handle the thousands of fingerprint records being received by us daily. We are at the present time receiving approximately thirty-four thousand sets of prints daily. We must have a scientific staff in the laboratory to examine scientific evidence. We must have an investigative force of sufficient size to handle the work being referred to us. We must have a technical and supervisory staff of sufficient size to render the service to our investigative, identification, laboratory, and statistical staffs so that we may have the benefit of the wealth of information in our various files. The work of the Federal Bureau of Investigation has increased so tremendously that every employee in the Bureau, regardless of his position, is performing a tremendous amount of overtime service. Our Special Agent investigators are performing no less than four hours a day overtime service. In the present emergency we have found it necessary to curtail leave because of inadequate personnel and many of our men have worked over long periods of time without having any time off for vacation.

D. 1.

The additional duties imposed upon the Bureau since the declaration of the national emergency have made it necessary that our staff be more than doubled. From the information furnished under sub-heading B, it will be seen that it is essential to carefully investigate every employee in the Bureau. All of our employees in the performance of their work at one time or another has opportunity to observe and note the content of confidential investigative reports, the publication of which would be most detrimental to the national safety. We have had considerable difficulty in securing sufficient employees. We find that out of applicants who file application, we are successful in appointing about one out of every one hundred. It, therefore, means that if we lose an employee after he is fully investigated and is being given training or has been experienced, we must again consider on an average, one hundred persons before he can be replaced. In the accelerated program of the Government it is essential that the Federal Bureau of Investigation work at top speed to keep abreast of its duties and investigation of matters pertaining to national defense, its regular activities, and its most important and essential identification activities at this time.

D. 5.

At the present time the Federal Bureau of Investigation is employing additional qualified persons as rapidly as they can be found. The assembled Congress has in the past several months passed several bills which will increase even to a greater extent our present volume of work. The needs of the service as to employees fluctuate with the periods of stress in the country.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

RE: JAMES HENRY GALE, Clerk

Cleveland, Ohio

March 31, 1942

This employee is neat in appearance, is aggressive, and well above average in intelligence. He is assigned to the chief clerk's office, where I find that he is capable of handling all types of assignments. He performs a very good volume of work in an accurate manner.

He makes numerous suggestions for the improvement of this office. These suggestions are generally well thought out and in several instances have been sufficiently good to warrant placing them into effect. He is very industrious and he is performing a well above average volume of overtime.

He is now going to law school and has one year before he completes his law course. I think this employee is very good agent material. His work is definitely above average and I feel that he is entitled to a rating of Excellent.

SAC BROOKLYN:

This employee is assigned to the chief clerk's office and is one of the two experienced employees assigned there. He has an amazing memory and is able to perform a much better than average volume of work because of his ability to recall facts and figures, particularly file numbers. He is well versed in the rules and regulations relating to the chief clerk's office. I have found him to be very conscientious, sincere and loyal. He has performed a much better than average volume of overtime work. He was given consideration for the chief clerk's job but was overly conscientious in the performance of his duties to such an extent that his health was seriously impaired. I therefore removed him from this assignment and made no recommendation to the Bureau that he be chief clerk. I feel that he would be capable of handling these duties were it not for the fact that he is too high strung. He does not have sufficient patience to thoroughly explain procedures to personnel which does not catch on as rapidly as it should. I consider this employee to be a much better than average clerical employee.

INSPECTOR EGAN:

This boy is a hard worker, he is intelligent and far above average as a clerk.

Re: JAMES H. GALE, Clerk
Special Agent Applicant

Dear Sir:

Transmitted herewith are Special Agent Examination Set #1, Interview Sheet and Certificate of Medical Examination for the above applicant.

Mr. GALE, in my opinion, comes within the provisions enumerated in Bureau letter dated December 11, 1942, No. 206, Series 1942. He has had approximately 48 semester hours of law at John Marshall Law School and Western Reserve University Law School, Cleveland, Ohio.

Though Mr. GALE is only 21 years of age, he looks older and is more mature than one of that age. His performance as a clerk has been excellent. He is very intelligent and I feel that at this time he is capable of performing the duties of a Special Agent. He presents a good personal appearance, has a very good personality and has been studying law for the sole purpose of becoming a Special Agent.

For the above reasons, I recommend that Mr. GALE's application for the position of Special Agent be given favorable consideration.

Very truly yours,

L. V. Boardman

SAC BOARDMAN:

This employee in my opinion is good agent material. He is very intelligent and aggressive and has an excellent knowledge of the duties in the Chief Clerk's Office. He is conscientious and industrious and I consider him to be outstanding. Status: EXCELLENT.

INSPECTOR HARBOR:

This employee makes a good appearance, has a pleasant personality, is intelligent, and aggressive and seems quite mature for his age. He is conscientious and definitely above average. He is studying law and will finish the course in June, 1943 at which time he intends to apply for a position as Special Agent. I believe he has good possibilities.

Notes for Examining Physician

WEIGHT.—Males, without clothing, and also in ordinary clothing without overcoat or hat (weigh twice); females, clothed, but without wrap or hat. If overweight, state whether due to bone and muscle or to fat.

HEIGHT.—Without boots or shoes; observe that no appliances are used to increase.

The examination should include the following observations:

1. **Eyes.**—Ptosis; discharge; corneal scar; pterygium. In recording distant vision consider 20 feet as normal and report all vision as a fraction with 20 feet as numerator and the smallest type read at 20 feet as denominator. If glasses are used, record for each eye the finding with and without glasses. Near vision must be reported. In testing vision without glasses the applicant or appointee should be instructed to remove the glasses at least one-half hour before testing uncorrected vision.

2. **Ears.**—Evidence of middle ear or mastoid disease; condition of drums; discharge. In recording hearing, record 20 feet as normal distance for conversational voice and record deviation from normal as fraction with 20 as denominator and actual distance as numerator.

3. **Nose.**—Ability to blow through each nostril. If free, a speculum examination would not be indicated.

4. **Mouth and throat.**—Missing teeth, pyorrhea; tonsils, hypertrophy or disease.

5. **Gastro-intestinal.**—Ulcers, inflammations, etc.

6. **Thyroid.**—Presence of tumor in neck and tremor, exophthalmos; nervous high-strung disposition, especially in women.

7. **Heart.**—Murmurs. State whether functional or organic. If valvular disease exists, state whether or not it is fully compensated. Arteriosclerosis.

8. **Lungs.**—It is necessary that the auscultatory cough be used. If tuberculosis is present, state whether active or arrested; if arrested, state your opinion as to how long it has been quiescent. Sputum to be examined for tubercle bacilli in all suspected cases.

9. **Hernia.**—Give details as to size, location, etc., and whether well-fitting truss is worn. Inguinal hernia exists when ring is enlarged and on coughing visceral impulse is felt which follows the finger on withdrawal.

10. **Varicocele.**—If varicocele is present, state approximate size—e. g., size of walnut, lemon, etc.

11. **Flat foot** of such a nature as to incapacitate or become aggravated by work or be alleged later to have been caused by accident or occupation. By "flat foot," as used in this form, is meant a weak foot with impaired function, the term being equivalent to "fallen or misplaced arch," an abnormal condition. Impairment of function is the point to be noted. An anatomically flat foot, but strong, is not disqualifying.

12 and 13. **Scars, deformities, atrophies, and paralyses** should be noted, but it is not important that small insignificant scars or blemishes which might be referred to as marks of identification be recorded.

14. This entry should include symptoms and full history of any mental or nervous abnormality.

15. **Urinalysis** to be made in case of persons over 40, and in all cases where arteriosclerosis, nephritis, or diabetes is suspected.

Record of urinalysis, if made: Sp. gr. _____ Albumen _____ Sugar _____ Casts _____
Blood pressure: Mm. Hg. systolic 140 Mm. Hg. diastolic 96
If tachycardia is present, give pulse rate: Sitting 80 Immediately after exercise _____ Two minutes after exercise _____

Interviewed and examined at Cleveland, Ohio, December 18, 1942.

Recommendation: Favorable.

Special Agent in Charge L. V. Boardman advised that applicant makes a good personal appearance and approach; is neat in dress; has ordinary features; good personality; is well-poised; average in speech; self-confident; tactful; answered general questions definitely; appears to be resourceful and is likely to develop; and appears to have some executive ability; however, he has not studied Federal Procedure. In a letter to the Director dated December 23, 1942, SAC Boardman also stated that applicant looks older and is more mature than his 21 years of age; that his performance as a clerk has been excellent; that he is very intelligent and is believed capable of performing the duties of an Agent. He has been studying law for the sole purpose of becoming an Agent.

In a memorandum for Mr. Glavin dated December 26, 1941, Mr. J. P. Mohr stated that during a telephone conversation with SAC Boardman on December 24, 1941, he had been advised that applicant, who had been Chief Clerk in the Cleveland Office for the past 2 1/2 months, was attending Law School as he is very desirous of becoming an Agent, and with all of his duties he had developed a highly nervous condition, lost weight, became jumpy, fidgety, and his doctor had advised him to take things easy; he stated that applicant had been working hard and apparently was worrying about his duties too much; he consequently was relieved of these duties.

During an inspection of the Cleveland Office by Inspector J.S. Egan in February, 1942, SAC Boardman stated that applicant had performed as much better than average employee in volume of work and overtime; has an amazing memory; is very conscientious, sincere and loyal; however, proved to be a bit high strung for the pressure of the Chief Clerk's duties and did not have patience in explaining procedures to personnel who did not catch on as quickly as they should. Inspector Egan stated that applicant is a hard worker, intelligent, and far above the average as a clerk.

On March 31, 1942, in a supplement to applicant's efficiency report, SAC Boardman stated that applicant performs a very good volume of work in an accurate manner; that he makes numerous suggestions for the improvement of the office which are generally well thought out and in several instances have been placed into effect; and that he/himself believes be very good agent material.

Gentlemen:

Reference is made to the Selective Service status of Mr. James H. Gale, who is duly registered at your Board. You will recall that under date of April 20, 1942, D.S.S. Form 42-A was furnished to your Board requesting that he be granted occupational deferment, and as a result thereof, he was placed in Class II-B until January 27, 1943.

Mr. Gale is still employed by the Federal Bureau of Investigation as a Confidential Index and File Analyst assigned to the Cleveland Field Division and has been so employed since November 29, 1939. In this position he possesses the necessary highly specialized experience so essential to the performance of his duties in connection with the successful war effort that it is not possible to replace him at this time. I desire to call your attention to Local Board Release Number 75, issued by General Hershey of National Selective Service Headquarters under date of December 29, 1941, advising your Board that the above listed position is one of the critical positions in this Bureau and requesting your cooperation in granting deferment whenever possible to do so. His removal for induction at this time would cause an impairment of the work we are now performing in order to guarantee the internal security of this country. I desire, therefore, to request that Mr. Gale be granted additional deferment in Class II-B.

SAC BOARDMAN:

This employee presents a very good personal appearance, is energetic, aggressive and definitely above average in intelligence. He is assigned to the Chief Clerk's Office on the late night shift and I feel that he has an excellent knowledge of all the functions of the Chief Clerk's Office. He is very conscientious in the performance of his duties and reports capably on night telephone complaints. He is attending law school with a definite view to becoming a Special Agent. I think he is very good prospective material for a Special Agent.

EXCELLENT

INSPECTOR GUTRIN:

This young man works the night shift in the Cleveland Field Division. At one time he acted as Chief Clerk. He is, without a doubt, an outstanding clerical employee, is unusually intelligent for a youth of his age and is definitely interested in becoming a Special Agent. He is well acquainted and is unusually familiar with the workings of the Chief Clerk's Office.

Notes for Examining Physician

WEIGHT.—Males, without clothing, and also in ordinary clothing without overcoat or hat (weigh twice); females, clothed, but without wrap or hat. If overweight, state whether due to bone and muscle or to fat.

HEIGHT.—Without boots or shoes; observe that no appliances are used to increase.

The examination should include the following observations:

1. **Eyes.**—Ptosis; discharge; corneal scar; pterygium. In recording distant vision consider 20 feet as normal and report all vision as a fraction with 20 feet as numerator and the smallest type read at 20 feet as denominator. If glasses are used, record for each eye the finding with and without glasses. Near vision must be reported. In testing vision without glasses the applicant or appointee should be instructed to remove the glasses at least one-half hour before testing uncorrected vision.

2. **Ears.**—Evidence of middle ear or mastoid disease; condition of drums; discharge. In recording hearing, record 20 feet as normal distance for conversational voice and record deviation from normal as fraction with 20 as denominator and actual distance as numerator.

3. **Nose.**—Ability to blow through each nostril. If free, a speculum examination would not be indicated.

4. **Mouth and throat.**—Missing teeth, pyorrhea; tonsils, hypertrophy or disease.

5. **Gastro-intestinal.**—Ulcers, inflammations, etc.

6. **Thyroid.**—Presence of tumor in neck and tremor, exophthalmos; nervous high-strung disposition, especially in women.

7. **Heart.**—Murmurs. State whether functional or organic. If valvular disease exists, state whether or not it is fully compensated. Arteriosclerosis.

8. **Lungs.**—It is necessary that the auscultatory cough be used. If tuberculosis is present, state whether active or arrested; if arrested, state your opinion as to how long it has been quiescent. Sputum to be examined for tubercle bacilli in all suspected cases.

9. **Hernia.**—Give details as to size, location, etc., and whether well-fitting truss is worn. Inguinal hernia exists when ring is enlarged and on coughing visceral impulse is felt which follows the finger on withdrawal.

10. **Varicocele.**—If varicocele is present, state approximate size—e. g., size of walnut, lemon, etc.

11. Flat foot of such a nature as to incapacitate or become aggravated by work or be alleged later to have been caused by accident or occupation. By "flat foot," as used in this form, is meant a weak foot with impaired function, the term being equivalent to "fallen or misplaced arch," an abnormal condition. Impairment of function is the point to be noted. An anatomically flat foot, but strong, is not disqualifying.

12 and 13. Scars, deformities, atrophies, and paralyses should be noted, but it is not important that small insignificant scars or blemishes which might be referred to as marks of identification be recorded.

14. This entry should include symptoms and full history of any mental or nervous abnormality.

15. Urinalysis to be made in case of persons over 40, and in all cases where arteriosclerosis, nephritis, or diabetes is suspected.

Record of urinalysis, if made: Sp. gr. _____ Albumen _____ Sugar _____ Casts _____

Blood pressure: Mm. Hg. systolic 122 Mm. Hg. diastolic 78

If tachycardia is present, give pulse rate: Sitting 88 Immediately after exercise _____ Two minutes after exercise _____ Cardiac reserve _____

Director, FBI:

Re: JAMES HENRY GALE, Clerk
Special Agent Applicant

Dear Sir:

Reference is made to Bureau teletype dated May 12, 1943, and in compliance with teletype Special Agent (A) James R. O'Hair contacted Harvey O. Yoder, Chairman, Local Draft Board #43, 14401 Detroit Avenue, Lakewood, Ohio.

Mr. Yoder stated that in case of deferments he felt favorable towards the Federal Bureau of Investigation. In view of the fact that consideration was being given to the appointment of James Gale as a Special Agent, he felt safe in assuring Agent O'Hair that deferment would be continued as to Gale, and would cause a notation to be made on the Selective Service records of the contact with the Bureau as to his feelings in the matter.

Mr. Yoder was informed that the draft board would be kept informed of the status of the applicant.

There is enclosed herewith the Certificate of Medical Examination of applicant Gale.

Very truly yours,

L. V. Boardman

SUMMARY OF INSPECTOR'S INTERVIEW AND EXAMINATION

RE: JAMES HENRY GALE
Special Agent Applicant

Written Rating: 56%
Oral " : 63%
Composite " : 59½%

Age: 21
Single

48 hours law, John Marshall and
West Reserve Univ. Law Schools
Enrolled Bureau Accounting Course
3 years, 6 months in FBI

Interviewed and examined at Cleveland, Ohio, December 18, 1942.

Recommendation: Favorable.

Interviewing Official L. V. Boardman advised that applicant makes a good personal appearance and approach; is neat in dress; has ordinary features; good personality; is well-poised; average in speech; self-confident; tactful; answers general questions definitively; appears to be resourceful and is likely to develop; and appears to have some executive ability; however, he has not studied Federal Procedure. In a letter to the Director, dated December 23, 1942, SAC Boardman also stated that applicant looks older and is more mature than his 21 years of age; that his performance as a clerk has been excellent; that he is very intelligent and is believed capable of performing the duties of an Agent. He has been studying law for the sole purpose of becoming an Agent.

In a letter to the Director, dated April 28, 1943, SAC L. V. Boardman stated that he is still of the opinion that this applicant is above-average agent material and in view of his draft status it is suggested that the Bureau may desire to favorably consider his application at this time.

In a memorandum for Mr. Glavin, dated December 26, 1941, Mr. J. P. Mohr stated that during a telephone conversation with SAC Boardman on December 24, 1941, he had been advised that applicant, who had been Chief Clerk in the Cleveland Office for the past 2½ months, was attending Law School as he is very desirous of becoming an Agent, and with all of his duties he had developed a highly nervous condition, lost weight, became jumpy, fidgety, and his doctor had advised him to take things easy; he stated that applicant had been working hard and apparently was worrying about his duties too much; he consequently was relieved of these duties.

During an inspection of the Cleveland Office from April 13 to June 15, 1941, Inspector Egan stated that applicant is a capable typist, a very hard worker, extremely interested in his work and above average in intelligence and ability.

Dear Sir:

With reference to the application of the above named individual for the position of Special Agent, this is to advise that it will not be possible to favorably consider him at the present time in view of his extreme youth.

It is suggested that Mr. Gale be afforded another opportunity to qualify for this position after he has attained his twenty-second birthday.

Last Efficiency Rating	Excellent
Age	24
Marital Status	Single
Draft Status	2B (Deferment Requested)
Legal Residence	Lakewood, Ohio
Office of Preference	Cleveland
Outstanding Endorsers	None
Field services as a clerk have at all times been far above average	

During the inspection of the Cleveland Office in April and June of 1941, Inspector Egan stated that this boy is a capable typist, a very hard worker, extremely interested in his work, and above average in intelligence and ability. During the inspection of the Cleveland Office in February of 1942, SAC Egan stated that Gale is a hard worker, intelligent, and far above average for a clerk.

In the annual efficiency rating as of March 31, 1942, SAC Boardman stated that Gale performs a very good volume of work in an accurate manner; that he has made numerous suggestions for the improvement of the office; that he is industrious and is performing a well-above average volume of overtime; that he is going to law school, and Mr. Boardman feels he is very good agent material. His work is definitely above average and he is entitled to a rating of Excellent.

During the inspection of the Cleveland Office in August of 1942, Inspector Harbo stated that Gale makes a good appearance, has a pleasant personality, is intelligent and aggressive, and seems quite mature for his years. He is conscientious and definitely above average. He intends to apply for the position as Special Agent and has good possibilities.

MEMORANDUM FOR MR. GLAVIN

Re: James Henry Gale

- 2 -

During the inspection of the Cleveland Office in January of 1943, SAC Boardman states that this employee presents a very good personal appearance, is energetic, aggressive and definitely above average in intelligence; that he has an excellent knowledge of all of the functions of the Chief Clerk's Office. He is conscientious in the performance of his duties, and is attending law school with a definite view to becoming a Special Agent. Mr. Boardman considered him very good prospective material for a Special Agent, and gave him a rating of Excellent. Inspector Guerin stated that Gale is without a doubt an outstanding clerical employee. He is unusually intelligent for a youth of his age, and is definitely interested in becoming a Special Agent. He is well acquainted, and unusually familiar with the workings of the Chief Clerk's Office. Inspector Guerin also rated Gale as Excellent.

Gale applied for a position as Special Agent in December of 1942, at which time he was favorably recommended by SAC Boardman for such a position; however, his application was unfavorably acted on at that time.

J. Edgar Hoover, Director
Federal Bureau of Investigation
United States Department of Justice
Washington, D. C.

Dear Mr. Hoover:

Reference is made to your letter dated June 8, 1943, wherein you tendered me an appointment as a Special Agent.

It is with a great deal of pleasure that I accept this appointment and I will report to Room 5256, United States Department of Justice Building, at 9:00 A.M., on June 21, 1943, for oath of office and assignment as per the instructions contained in reference letter.

I am forwarding herewith the conditional letter, which has been executed by me in accordance with the Bureau's instructions.

Very truly yours,

Section 9A of Public 252—76th Congress, approved August 2, 1939, otherwise known as the "Hatch Act," provides:

"(1) It shall be unlawful for any person employed in any capacity by any agency of the Federal Government, whose compensation, or any part thereof, is paid from funds authorized or appropriated by any Act of Congress, to have membership in any political party or organization which advocates the overthrow of our constitutional form of government in the United States.

"(2) Any person violating the provisions of this section shall be immediately removed from the position or office held by him, and thereafter no part of the funds appropriated by any Act of Congress for such position or office shall be used to pay the compensation of such person;"

It is provided in various appropriation acts that no part of the funds so appropriated shall be used to pay the salary or wages of any person who advocates, or who is a member of an organization that advocates, the overthrow of the Government of the United States by force or violence, and that an affidavit shall be considered *prima facie* evidence that the person making the affidavit does not advocate, and is not a member of an organization that advocates, the overthrow of the Government of the United States by force or violence. Such acts provide further that any person who advocates, or who is a member of an organization that advocates, the overthrow of the Government of the United States by force or violence and accepts employment, the salary or wages for which are paid from any such appropriation, shall be guilty of a felony and, upon conviction, shall be fined not more than \$1,000 or imprisoned for not more than 1 year, or both, and that the above penalty shall be in addition to, and not in substitution for, any other provisions of existing law.

Annual Efficiency Rating

This employee presents a neat personal appearance and has a very good personality. He is assigned to the Chief Clerk's Office and has a thorough knowledge of all the duties therein.

Mr. GALE is well above average in intelligence and is exceptionally industrious, conscientious and sincere in the performance of his duties. He commits a minimum amount of error and is always thinking of ways and means of improving his performance. He accomplishes an excellent volume of work.

This employee performed an average of 1 hour and 25 minutes per day overtime during the rating period, whereas the office average for clerks per day during the rating period was 1 hour and 22 minutes. His overtime is therefore above the office average.

This employee is agent material and I feel he would become an above-average Special Agent. I consider him to be an excellent employee.

Mr. James H. Gale
Federal Bureau of Investigation
Department of Justice

Dear Mr. Gale:

You are hereby appointed a Special Agent in the Federal Bureau of Investigation, Department of Justice, with salary at the rate of \$3200 per annum in Grade CAF-9. You will also be allowed your expenses of travel and operation and per diem in lieu of subsistence in accordance with existing regulations when absent from official headquarters, which are hereby fixed at Washington, D. C., effective upon your entry on duty, to which point you should proceed at your own expense in order to assume your official duties. Your headquarters will thereafter be changed from time to time to such places as may be deemed advisable by the Director of the Federal Bureau of Investigation, under whose supervision and instructions you will be employed.

Your salary, expenses, and per diem will be paid from the appropriation for "Salaries and Expenses, Federal Bureau of Investigation" (National Defense) FID.

This appointment will take effect when you enter on duty at Washington, D. C.

This letter is not to be considered as operating credentials and is not to be so used. Operating credentials are issued separately.

Respectfully,

Mr. James H. Gale
Federal Bureau of Investigation
Department of Justice

Dear Mr. Gale:

You are hereby appointed a Special Agent in the Federal Bureau of Investigation, Department of Justice, with salary at the rate of \$3200 per annum in Grade CAF-9. You will also be allowed your expenses of travel and operation and per diem in lieu of subsistence in accordance with existing regulations when absent from official headquarters, which are hereby fixed at Washington, D. C., effective upon your entry on duty, to which point you should proceed at your own expense in order to assume your official duties. Your headquarters will thereafter be changed from time to time to such places as may be deemed advisable by the Director of the Federal Bureau of Investigation, under whose supervision and instructions you will be employed.

Your salary, expenses, and per diem will be paid from the appropriation for "Salaries and Expenses, Federal Bureau of Investigation," (National Defense) FIELD.

This appointment will take effect when you enter on duty at Washington, D. C.

This letter is not to be considered as operating credentials and is not to be so used. Operating credentials are issued separately.

Respectfully,

Francis Biddle

Attorney General.

Washington, D. C.

Dear Sir:

For inclusion in the fund to be paid to the widow or designated beneficiary of any Special Agent of the Federal Bureau of Investigation, United States Department of Justice, who has contributed to this fund subsequent to January 15, 1943, and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of five dollars (\$5), made payable to the Chief Clerk of said Bureau, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

The Director of the Bureau will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director of the Bureau in pertinent matters. The Chief Clerk of said Bureau shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of \$5,000.

The following person is hereby designated as my beneficiary:

Name Mrs. Violet Marie Gale Address 1251 Summit Ave., Lakewood, Colo.

FEDERAL BUREAU OF INVESTIGATION 12th

SPECIAL AGENTS

This position has been designated as a key position by the Review Committee of the War Manpower Commission.

The Federal Bureau of Investigation has been designated as the sole civilian government investigative agency having jurisdiction over the investigation of matters pertaining to national defense such as espionage, sabotage, registration of agents of foreign principals, sedition, treason, and the like, and further, the Federal Bureau of Investigation has sole investigative jurisdiction in a great number of other Federal statutes which embrace bank robbery, kidnaping, extortion, white slave traffic, National Motor Vehicle Theft Act, and numerous others. The investigative work in connection with the above violations is performed by the Special Agent personnel of this Bureau, who are recruited from applicants between the ages of twenty-three and forty. They must be graduates of a law school or an accounting school with the necessary accounting experience, or graduates of a university with extensive investigative experience, or with linguistic qualifications, or have basic educational training and possess satisfactory prior law enforcement experience which will enable them to satisfactorily perform the duties imposed upon them. For certain of the scientific investigative work, Special Agents are secured who primarily are qualified in the sciences, such as ballistics, chemical analysis, spectography, cryptography, mineralogy, metallography, toxicology, and other like sciences. Applicants for appointment to the position of Special Agent must meet the physical standards and requirements for this position, which are exceedingly high. They must have vision of no less than 20/40 in one eye, 20/50 uncorrected, both eyes to be corrected to 20/20. They must have no color deficiency whatever.

Special Agents of the Federal Bureau of Investigation undergo a rigorous training program. All newly appointed Special Agents in the Federal Bureau of Investigation attend training classes for a period of sixteen weeks; the hours of training are from 9:00 a.m. to 9:00 p.m. daily, which course of study is equivalent to two full years of college study. During this period of training, they are thoroughly instructed in the basic rules and regulations and jurisdictions of the Federal Bureau of Investigation. They must satisfactorily pass numerous written examinations during their period of training. If a trainee fails to pass any of these examinations, he is dropped from the school.

The duties of a Special Agent of the Federal Bureau of Investigation are most arduous. They must be available at a moment's notice to go to any part of the United States or to any assignment outside the United States. The hours of duty for these employees are such that they must be in excellent physical health. The average work week for a Special Agent of the Federal Bureau of Investigation is no less than seventy hours. The work of a Special Agent, regardless of his particular qualification, is such that he cannot lead a sedentary or well regulated life. Due to the small number of Special Agents of the Federal Bureau of Investigation presently handling the work under the jurisdiction of the Federal Bureau of Investigation within and without the continental United States, it is necessary that the entire staff be highly mobile.

Special Agents are required to be able to conduct investigations in more than 100 types of cases, including espionage, sabotage, subversive activities, frauds against the government, kidnaping, extortion, bank robbery, White Slave

Traffic Act, etc. They are trained in and required to maintain constant skill in the use of highly technical equipment, technical processes, such as those necessary for the development of latent fingerprints, concealed or obliterated numbers upon firearms, to understand the use of code messages, to conduct physical surveillances of subjects of espionage and similar cases, sometimes for periods of many months, and when necessary, to assume a necessary character to enable them to fit in an undercover capacity into the activities and operations of groups such as foreign agents, who are engaged in thwarting the war effort.

The arduousness and importance of the work of Special Agents of the Federal Bureau of Investigation was readily recognized by the military and naval leaders. The Chief of the Bureau of Navigation, for the Secretary of the Navy, requested Special Agent employees of the Federal Bureau of Investigation to submit their resignations from reserve commissions held by them in the naval services because it had been determined that those Special Agents could better serve their country in their present assignments than if they were to be called into active naval service. The Secretary of War, in 1942, addressed personal communications to 168 Special Agents of the Federal Bureau of Investigation who at that time held reserve commissions in the Army. The Secretary of War at that time advised the Special Agents that their employment in the FBI is of such vital importance to the national defense as to necessitate their remaining at their posts of duty despite the fact that they held reserve commissions in the United States Army, and the request was made that these Agents, through the proper channels, submit their resignations from their commissions.

General Lewis B. Hershey of the Selective Service System pointed out in his Directive to all Local Boards of December 29, 1941, that Special Agent positions of the FBI were most important and essential to the national health, safety, and interests, and that the national defense functions of the FBI should not be impaired by the removal of trained personnel from critical positions in the Bureau.

The position of Special Agent has always been considered the most critical of all positions in the FBI, since, with the tremendous bulk of work placed upon us due to the war emergency, it is essential that a trained qualified staff be available for the handling of this work. If the Federal Bureau of Investigation cannot continue to retain its personnel in this critical position, aid and comfort would most certainly be given to the enemy and others whose interests are inimical to the best interests of the country today. Up to the present time the full complement of Special Agent personnel has not been secured and every effort is being made to secure the necessary additional Special Agent personnel.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

Appeal Procedure

Any person entitled to do so may take an appeal to the board of appeal within 10 days after the above date of mailing of Notice of Classification to registrant in either of the following ways:

- (1) By filing with the local board a written notice of appeal. Such notice need not be in any particular form but must state the name of the registrant and the name and identity of the person appealing so as to show the right of appeal.
- (2) By signing the "Appeal to Board of Appeal" on the Selective Service Questionnaire (Form 40).

When an appeal is taken from the classification or reclassification of a registrant and when such appeal is upon the ground that the registrant should have been deferred by reason of his occupation, the appeal shall be transferred to the board of appeal having jurisdiction over the area in which the registrant is employed, provided all of the following conditions are met (but not otherwise):

- (1) The first person to appeal from such classification or reclassification files with his appeal a written request for such transfer;
- (2) The written request states in what respect an occupational question is involved; and
- (3) The written request states the name of the registrant's employer and the street address, county, and State where the registrant is employed.

The person appealing may attach to his notice of appeal or to the Selective Service Questionnaire (Form 40) a statement specifying the respects in which he believes the local board erred, may direct attention to any information in the registrant's file which he believes the local board has failed to consider or give sufficient weight, and may set out in full any information which was offered to the local board and which the local board failed or refused to include in the registrant's file.

Appeal to the President from classification by the board of appeal may be taken at any time within 10 days after the date of mailing of notice to registrant, provided the registrant was classified by the board of appeal in either Class I-A, Class I-A-O, or Class I-A-E and one or more members of the board of appeal dissented from such classification. Otherwise, the decision of the board of appeal is final except when an appeal is taken to the President either by the State Director of Selective Service or the Director of Selective Service on the ground that he deems it to be in the national interest or necessary to avoid an injustice.

MEMORANDUM:

RE: JAMES H. GALE, Special Agent;
Special Efficiency Report

END

6-21-43

This special efficiency report is being submitted in view of the assignment of this Agent to this office for a 60-day period beginning October 14, 1943, when he reported here from Training School.

Special Agent GALE is young, has a youthful appearance, is clean cut, dresses well, conducts himself as a gentleman at all times. He is plentifully imbued with force and aggressiveness, expresses himself in a very rapid manner, moves about actively, and seems to be intelligent.

He is a good dictator, marshals his facts well, submits good reports. I am not acquainted with this Agent's ability to handle an automobile. I believe that he would make a good witness since he expresses himself well. I do not believe that he is as yet qualified for dangerous assignments due to his lack of experience. His handling of firearms has been satisfactory to date, but he would need more training and experience before he could function on a dangerous assignment. This agent should be able to handle a physical surveillance without difficulty. Due to his experience as a clerk, he handles the typewriter in a capable manner and can submit excellently prepared rough drafts.

His reports have been well written and in good form. This Agent will need additional experience before he can be used in an unlimited capacity on contact work. At the present time he is inclined to permit his enthusiasm and aggressiveness to run away with him. It is noticeable at times when he is excited he is inclined to stutter somewhat in his speech.

For a new Agent, Special Agent GALE has demonstrated above average ability in organizing and initiating investigations. He has demonstrated initiative in handling assignments and has developed several new cases while handling investigations in cases assigned to him.

His experience to date has been for the most part along criminal investigative lines, Selective Service, and applicant investigations.

I believe that this Agent with experience and supervision will develop rapidly in the Bureau.

Very truly yours,

R. G. DANNER
Special Agent in Charge

Gale is twenty-one years of age, single and comes from Cleveland, Ohio. He was employed as Chief Clerk in the Cleveland Field Division prior to becoming an Agent and attended Western Reserve University and John Marshall Law School during the time he was working in the Cleveland Office. He graduated receiving an LL.B. (cum laude).

Gale is tall and presents a very good appearance. He has a tremendous amount of enthusiasm and is a hard worker. He is above the average in intelligence and his attitude is excellent. It is believed that after receiving a reasonable amount of field experience this Agent will develop into an above the average Agent in the field.

The Special Agent in Charge of Firearms has certified that this Agent is qualified in the use of all Bureau firearms.

Gale satisfactorily passed an automobile driving test afforded him by the class Counselor.

Special Agent in Charge
Dallas, Texas

Dear Sir:

This is to advise you that Special Agent J. H. Gale, who entered on duty June 21, 1943, in Grade CAF-9, at a salary of \$3,200 per annum, has been directed to report to you for assignment. The training school terminates on October 9, 1943, on which date he will proceed to your division. You should advise the date of his arrival.

You are instructed to continue the training of the Agent so that he may receive experience in all branches of the work of the Bureau. In submitting special efficiency reports, in accordance with the provisions of the Manual of Rules and Regulations, you should include statements as to the kinds of cases on which the employee has been engaged, his ability or lack thereof in any certain phase of the work, and particularly his ability to perform more involved investigations, such as bankruptcy. It is further desired that you give your personal attention to the development of this employee along administrative and executive lines and that any pertinent information indicating possibilities for assignment to such work be reported to the Washington headquarters of the Bureau from time to time.

Very truly yours,

John Edgar Hoover

Director
Federal Bureau of Investigation
United States Department of Justice
Washington, D. C.

Dear Sir:

For inclusion in the fund to be paid to the widow or designated beneficiary of any Special Agent of the Federal Bureau of Investigation, United States Department of Justice, who has contributed to this fund subsequent to August 31, 1943; and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of ten dollars (\$10.00), made payable to the Chief Clerk of said Bureau, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

The Director of the Bureau will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director of the Bureau in pertinent matters. The Chief Clerk of said Bureau shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of \$10,000.

The following person is hereby designated as my beneficiary:

Name Mrs. Violet M. Gale Address 1251 Summit Ave. Lud., Ohio

Mr. Gale is a Special Agent and as such holds a key position as designated by the Review Committee of the War Manpower Commission within the meaning of Executive Order 9509. The performance of his duties is essential and critical to the execution of the work assigned by law and Executive Directive to the Federal Bureau of Investigation.

To the Federal Bureau of Investigation is assigned the responsibility of investigating all acts of espionage, sabotage and all actions tending to undermine the internal security of the nation. We must also investigate and enforce all those federal statutes assigned to the investigative jurisdiction of this Bureau such as: bank robbery, kidnaping, interference with the interstate transportation of goods, National Stolen Property Act, White Slave Traffic Act, etc., the enforcement of which is necessary to the preservation of the national health, safety and interest.

To carry on this work it is necessary to maintain a corps of trained investigators. Mr. Gale is such a trained investigator. In the attached Form 42 S further information relative to Mr. Gale is set forth.

Traffic Act, etc. They are trained in and required to maintain constant skill in the use of highly technical equipment, technical processes, such as those necessary for the development of latent fingerprints, concealed or obliterated numbers upon firearms, to understand the use of code messages, to conduct physical surveillances of subjects of espionage and similar cases, sometimes for periods of many months, and when necessary, to assume a necessary character to enable them to fit in an undercover capacity into the activities and operations of groups such as foreign agents, who are engaged in thwarting the war effort.

The arduousness and importance of the work of Special Agents of the Federal Bureau of Investigation was readily recognized by the military and naval leaders. The Chief of the Bureau of Navigation, for the Secretary of the Navy, requested Special Agent employees of the Federal Bureau of Investigation to submit their resignations from reserve commissions held by them in the naval services because it had been determined that those Special Agents could better serve their country in their present assignments than if they were to be called into active naval service. The Secretary of War, in 1942, addressed personal communications to 168 Special Agents of the Federal Bureau of Investigation who at that time held reserve commissions in the Army. The Secretary of War at that time advised the Special Agents that their employment in the FBI is of such vital importance to the national defense as to necessitate their remaining at their posts of duty despite the fact that they held reserve commissions in the United States Army, and the request was made that these Agents, through the proper channels, submit their resignations from their commissions.

General Lewis B. Hershey of the Selective Service System pointed out in his Directive to all Local Boards of December 29, 1941, that Special Agent positions of the FBI were most important and essential to the national health, safety, and interests, and that the national defense functions of the FBI should not be impaired by the removal of trained personnel from critical positions in the Bureau.

The position of Special Agent has always been considered the most critical of all positions in the FBI, since, with the tremendous bulk of work placed upon us due to the war emergency, it is essential that a trained qualified staff be available for the handling of this work. If the Federal Bureau of Investigation cannot continue to retain its personnel in this critical position, aid and comfort would most certainly be given to the enemy and others whose interests are inimical to the best interests of the country today. Up to the present time the full complement of Special Agent personnel has not been secured and every effort is being made to secure the necessary additional Special Agent personnel.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

MEMORANDUM:

RE: JAMES H. GALE, Special Agent;
Special Efficiency Report.

This efficiency report is being submitted in view of the transfer of the above captioned Agent to the Omaha Field Division.

Since the submission of the last efficiency report on this Agent dated December 23, 1943, he has shown remarkable improvement. He is, as a matter of fact, one of the best new agents with whom I have ever worked. Undoubtedly his previous experience in the Bureau is being utilized to an excellent advantage by this Agent.

W. H. P.
He is a good dictator, it being noted that his completed reports need very little supervision. He is a satisfactory automobile driver, but no occasion has arisen in this district to observe his handling of an automobile under emergency conditions. However, he seems to be possessed of good judgment and I have no doubt that he could discharge this responsibility in a capable manner.

I am informed that this Agent was called upon to present a rather involved and difficult case to the court wherein an Impersonator had entered a plea of guilty and had attempted to misrepresent his offense. Special Agent GALE made a very capable presentation of the case, testifying in a clear, distinct tone of voice, showing no undue bias or prejudice against the subject. While Special Agent Gale did not undergo cross examination I am of the opinion he would make an excellent witness and could hold his own under cross examination.

This Agent has not participated in supervised firearms training in this district as yet and consequently I am not able to pass judgment on his ability to function on a dangerous assignment. I am inclined to believe he should receive additional training and supervision with firearms before being used on any type of dangerous work.

He could handle a physical surveillance with assistance. This Agent is an excellent typist, but does not take shorthand. His reports, as pointed out above, are well prepared.

Special Agent GALE'S contacts with law enforcement officials in this district have been well handled. He has had little opportunity to handle business contacts. It does not appear, however, that he has had any difficulty in this respect.

RE: JAMES H. GALE, Special Agent;
Special Efficiency Report.

He has shown ability to organize and initiate investigations of the ordinary type.

This Agent will accept responsibility and discharge same without too much supervision. In this connection, however, I believe that due to his immaturity and enthusiasm Special Agent GALE will need some supervision until he has gained in experience. He is the type of Agent who works ceaselessly on his investigations. He is possessed of unbounded enthusiasm and takes his assignments very seriously.

This Agent has not handled any Security work, nor has he engaged in the investigation of any Espionage cases. He has assisted in the investigation of an alleged Sabotage case in this office. He has handled several criminal cases, including one Impersonation case.

Special Agent GALE has not had an opportunity in this district to display any supervisory, administrative or executive ability and it is possibly too early to judge him in this respect.

He has not been assigned exclusively to any technical surveillance.

Very Truly yours,

R. G. DANNER
Special Agent in Charge.

Dear Mr. Naughten:

Reference is made to your letter of March 20, 1944, with which you transmitted copies of a manuscript prepared by Special Agent James H. Gale. A review of this proposed talk indicates that paragraph after paragraph has been copied directly from the Bureau release entitled "Juvenile Delinquency." As you know, the Bureau desires Agent personnel who are anxious to participate in speaking engagements to use their own initiative in preparing manuscripts for Bureau consideration.

Accordingly, Special Agent Gale cannot be approved on this occasion. In the event you desire to utilize him in the future, it is suggested that you have him prepare a comprehensive manuscript concerning the work of the Bureau rather than a specialized subject such as he selected on this occasion.

Dear Sir:-

There are attached hereto an original and two copies of a speech manuscript prepared by the above Agent. The manuscript is entitled - "THE PROBLEM OF JUVENILE DELINQUENCY."

I have read this manuscript and I am submitting it to you for appropriate consideration with the thought in mind of designating this Agent as an approved Bureau speaker.

Special Agent GALE is an above average Agent in every respect, has an excellent grasp of Bureau work and policies, he having been Chief Clerk in the Cleveland Office prior to his entrance as a Special Agent. He makes a good appearance, speaks convincingly and has adequate poise to handle small groups.

I am, of course, aware of the current instructions as to who may make speeches in the field; nevertheless, I would like to have this man on the approved list so that his services may be available in time of emergency with Bureau approval.

- THE PROBLEM OF JUVENILE DELINQUENCY -

It is with a great deal of pleasure that I am appearing before this Parent-Teacher group tonight, in an effort to bring before you some of the problems confronting Wartime America with respect to the delinquency of its youth. The problem of juvenile delinquency is one in which FBI Director MR. J. EDGAR HOOVER has manifested a profound interest, and during my discourse tonight I will endeavor to pass on to you many of MR. HOOVER'S illuminating ideas on the subject.

First of all, let us examine the records and determine to what extent juvenile delinquency is on the increase as a result of America's participation in an all out war effort. In the first nine months of 1943 the fingerprint records of the FBI reflected arrests of girls under 21 years of age, for offenses against common decency, increased 69.6% over the same period in 1942, while arrests of girls under 21 for crimes against property, such as robbery, burglary, larceny and other related crimes, increased 33.6%. In 1942 arrests increased over 1941 and so on. Today more boys and girls 18 years of age and under are being arrested than in any other age group. In fact, 17 year olds alone accounted for a 25.3% increase in arrests in the first 9 months of last year over 1942. The FBI has just completed a survey of actual arrests in 18 leading cities, representing a population of 10,000,000 inhabitants, which reflected a 42.7% increase in the arrests of boys under 18 years of age and a 43% increase in the arrests of girls under 18 years of age in the first six months of last year, over a corresponding period in 1942.

Re: Juvenile Delinquency.

I have now endeavored to place before you some figures concerning the amazing and appalling increase in juvenile delinquency, and I believe that the next logical question is, "What effect has the war had on our problem of juvenile delinquency". With adult America plunged wholeheartedly in the war effort, the youth's craving for excitement and adventure has reached a new high. With the daily newspaper filled with daring exploits of the Marines hand-to-hand combat with the treacherous Jap; with Hollywood portraying on the screen in its inimitably realistic style the bombing of Europe by intrepid American airmen; with the radio dramatizing the life and death exploits of our heroes on the high seas, the youth of the United States demands action. Everywhere they go they hear of great adventure and of amazing experiences being encountered by their older brothers and sisters. Youth, quite naturally, has to have an outlet for this pent-up craving for excitement, and many of the youngsters have found that action by enlisting in the armed forces of the nation and hiding their true ages. Other juveniles, who crave excitement and are not able to get into the armed forces, play war at home, and some play too roughly. Recently, the mother of a young boy complained to the Police that her son had been tortured by some of his companions. Investigation revealed that three boys, while playing in "boy-like" fashion, turned on her son and gave him a good pommelling with their knuckles on the top of his head. Remembering movies and comic strips they have seen, they climaxed their sport by telling the victim gory tales of Japanese atrocities and intimated they would pierce his solar plexis with a spear. It is that urge for adventurous excitement inspired by the fact that

Re: Juvenile Delinquency.

the United States is at war that has helped lead to the increase in juvenile crimes.

Another definite reason for juvenile delinquency is divorce and the broken home, which many times leaves the youngster without the necessary parental guidance which is so essential during formative adolescent years; when he needs and yearns for affectionate leadership and discipline, which only parents can provide. Let us take the case of JOHN, a young man about 18 years old, as one who suffered as a result of the broken home and shiftless parents who refused to recognize their responsibilities. JOHN'S parents could not get along. After a series of arguments they separated in 1935, following an unusually violent demonstration, and the boy went to live with his father. But JOHN'S father cared no more for his son than he did for JOHN'S mother and he failed to provide that supervision JOHN needed so badly. Finally, in 1939, the father married another woman, who could not get along with the boy. This young man had little alternative but to seek life where he could find it and he soon left home, wandering aimlessly about the country. His associates were of the lowest type and he was in continual trouble with the authorities. In February of 1940 he joined the Army, but soon went AWOL. Since that time he has spent many months in a Midwestern prison, following a conviction on a morals charge, and today is again imprisoned for stealing an automobile and joy riding across the country. The entire course of life for this young man might have been changed if he had enjoyed the understanding and happiness which comes from a well balanced home. But when left to his own devices, he took the road of life which looked easiest to him, and his

Re: Juvenile Delinquency.

association with individuals of questionable character virtually eliminated his chances for becoming a useful citizen.

Let us illustrate further. Take the story of a young man, which we will call GLENN. He was one of the many young men, who, lacking the strong support and direction of parents, swung to crime as a life to be desired. While only 17 years of age, GLENN was permitted to frequent cheap pool rooms and movie houses, spending practically his entire waking hours in places of this type. The distorted portrayal of life he picked up there was supplemented by the colorful, unfounded tales of adventure in low-grade pulp magazines. GLENN thought life at home was quite dull, unlike the dreams of his wild imagination. Home to him was merely a place to eat and sleep. He refused to obey his parents and frequently cursed and struck his mother. A firm hand was needed for this boy, but it was missing. The crisis came when GLENN, brandishing a stolen rifle, forcibly stole an automobile, spraying lead about the owner's feet, as he had seen it done on the screen and had read about in his favorite cheap magazines. GLENN'S plans, like many another misguided youth, were abruptly ended by his arrest and today he is in the reformatory.

Another reason for the increase in juvenile delinquency at the present time is the fact that in very many homes both parents are busily engaged in the production of vital war goods, and as a result have not the time nor the energy to properly supervise the activities of their children. There have been numerous reports of American factory towns, where parents working on the "swing shift" at war plants have lost almost complete touch with their children, resulting in increased truancy and sometimes crime. In many instances, where conditions of this nature prevail, the American home has fallen into disrepair, and the younger children are being neglected. Home

Re: Juvenile Delinquency:

to them is no longer a happy place, where loved members of the family fathered, but rather it is merely a place to sleep. It is lonely and empty, and mother and father seem to be too tired during the small amount of time they are home to give them any attention. Of course, where children have no supervision and discipline, conditions are ripe for trouble.

Let us consider the case of "JIMMY", who lived in a West Coast city. Although but nine years old, he knew little of the care and affection a child needs. His mother was a welder and his father a mechanic in a nearby war plant. They left home each day at 5:00 A.M. and returned at 6:00 P.M. At night they were completely exhausted and too tired to be bothered with their little son's problems. Each day he was pushed off in the care of neighbors. One day, while the lad was suffering one of his "forced" visits to a neighbor's home, he stole nearly \$50.00. Because of the fact that JIMMY'S parents proved themselves incapable of looking after their young son, the city authorities are seeing to it that he is no longer a victim of neglect and lack of attention.

The young girls of America are contributing heavily to the problem of juvenile delinquency. In fact, when we compare the arrests of girls under 21 in 1941 with the arrests of girls in 1943 under 21, we find that they have increased by the staggering extent of 130%. Today more than ever before we find young girls under 21, the mothers of tomorrow, draping themselves over bars and loafing around "honkeytonks", giving their bodies freely to soldiers and civilians alike. Some of these girls, commonly called "Victory Girls" or "Khaki Wackies" have given themselves freely to men in the armed forces, laboring under a warped concept of patriotism. If these girls would only give the matter some consideration they would realize that their promiscuity with

Re: Juvenile Delinquency.

members of the armed forces is definitely the most unpatriotic thing they could do, aside from the fact that the moral disintegration of these girls is eating into the very heart of our nation. These girls are actually interfering with the war effort and causing the General Staff officials of the U.S. Army a great deal of concern by being carriers of dreaded venereal diseases, which are costing the armed forces a tremendous loss in man days. From 1940 to 1942, inclusive, newly contracted venereal disease infections have been responsible for 329,000 servicemen being incapacitated for a total of 4,175,000 days. The major part of the venereal diseases contracted by members of the armed forces are not through contact with professional prostitutes, but rather through the "Victory Girl", who is actually interfering with the war effort instead of aiding it.

Let us take the case of GRACE. GRACE was left an orphan at an early age and married at the age of 16. Despite the fact that the odds against her marriage were tremendous, she and her young husband were getting along very well until the war came. Something happened to the moral fibre of GRACE and it snapped loose. She left her husband and young child and began to give herself freely to members of the armed forces. Today, GRACE is in a Government sponsored clinic, being treated for syphilis. Not only has she damaged the lives of her family, but she has also infected many members of the armed forces with her loathsome disease.

Let us take another tragic case of youngsters being infatuated with the uniform and causing themselves and others much unhappiness. BETTY & ERMA were 14 and 13 years old respectively. Both came to the South from a large Eastern seaport; both married sailors, after a courtship of but a few hours,

Re: Juvenile Delinquency.

and both were left standing on the dock after three days, with marriage certificates in their pockets, a few blurred memories, and a lonely future. Shortly thereafter, they were observed by the Police and turned over to the protective custody of a welfare society. BETTY & ERMA, however, are only typical of the young girls that have strayed away from home, seeking illusive happiness. Many have become war brides; many carriers of insidious diseases. Some have stayed close to home, and yet have not kept within the bounds of common decency. In many cities adjacent to a Naval or Military establishment, the Police blotter coldly records the tragedies among excitement-hungry or uniform-crazy young girls. In some cities from coast to coast it has been necessary to put curfew regulations into effect, to keep young people off the streets at night and during the early morning hours.

Who is to blame for the appalling moral degradation of our youth. Our Director, J. EDGAR HOOVER, says that he does not blame the youngsters, but very definitely places the blame on the parents, who have failed in their responsibility to the children. MR. HOOVER stated that American parents failed in the years before the war, in that they let discipline slide. Some did it deliberately, as a matter of "theory"; others "thoughtlessly, because it was the trend of the times.

The FBI is interested in the problem of juvenile delinquency, in that it, through the gigantic fingerprint system, maintains records and advises local officials as to a general background of crimes, as to types, age, sex and etc. The FBI is constantly endeavoring to acquaint the American public of the many potential dangers which lay in juvenile delinquency. During World

Re: Juvenile Delinquency.

War II the FBI has itself come in contact with more juvenile offenders than ever before in its history. Many of the individuals involved in White Slave Traffic Act and National Motor Vehicle Theft Act cases are youngsters in their early and late teens. In Selective Service cases and in violations of the Servicemen's Dependents Allowance Act, juveniles who do not appreciate their responsibilities to a "warring" United States are making themselves known in considerable numbers to the FBI.

The next logical question is, "What are we going to do to relieve the nation of this burden of juvenile crime". The problem is further aggravated by the fact that many of our youth leaders are in the armed forces and away from the home community. Also, the law enforcement staffs and juvenile courts are greatly undermanned.

Primarily, the duty of training the child rests with the parent. If father and mother fail to "apply the rod and as a result spoil the child", then undoubtedly we can expect an increasing number of juvenile delinquents. However, if the parents conscientiously assume the responsibility of endeavoring to rear their children as law-abiding citizens; teaching them at an early age respect for lawful authority and adherence to sound moral principles, then we will have gone a long way in solving our problem.

Parent-Teacher Associations should make a definite effort to see that discipline in the home and in the school is coordinated. The parent should be advised by the teachers of any special disciplinary problems, and then make every effort to cure the cancer of delinquency at its inception.

It is also necessary, in order to eliminate the problem of juvenile delinquency, that local law enforcement agencies rigidly enforce the laws relating to prostitution, selling of obscene literature, tobacco and liquor to minors, and that vigorous prosecutive action be taken against the 20th Century

Re: Juvenile Delinquency.

Judas, who is willing to sell out the youth of America for a few pieces of silver.

The churches, schools and other social organizations must also aid in the war on juvenile delinquency. In addition to providing sound religious and scholastic guidance, they must provide outlets for the abundant excess of energy of our youth. If this is not properly supervised and canalized, it will overflow its banks and pour into improper channels, forming an ever increasing human cesspool that could eventually submerge our great nation.

Appeal Procedure

Any person entitled to do so may take an appeal to the board of appeal within 10 days after the above date of mailing of Notice of Classification to registrant in either of the following ways:

- (1) By filing with the local board a written notice of appeal. Such notice need not be in any particular form but must state the name of the registrant and the name and identity of the person appealing so as to show the right of appeal.
- (2) By signing the "Appeal to Board of Appeal" on the Selective Service Questionnaire (Form 40).

The person appealing may attach to his notice of appeal or to the Selective Service Questionnaire (Form 40) a statement specifying the respects in which he believes the local board erred, may direct attention to any information in the registrant's file which he believes the local board has failed to consider or give sufficient weight, and may set out in full any information which was offered to the local board and which the local board failed or refused to include in the registrant's file.

Appeal to the President from classification by the board of appeal may be taken at any time within 10 days after the date of mailing of notice to registrant, provided the registrant was classified by the board of appeal in either Class I-A, Class I-A-O, or Class IV-E and one or more members of the board of appeal dissented from such classification. Otherwise, the decision of the board of appeal is final except when an appeal is taken to the President either by the State Director of Selective Service or the Director of Selective Service on the ground that he deems it to be in the national interest or necessary to avoid an injustice.

RE: JAMES HENRY GALE, SPECIAL AGENT,
Entered on Duty: June 21, 1943
Entered on Duty at Omaha: Febr. 9, 1944
Salary \$3200.00 Grade CAF-9

This Agent has been assigned to the Omaha Office since February 9, 1944, this being his second office. His appearance belies his age since he looks and acts older than he actually is; he has matured rapidly. He is of strong physique, forceful personality, and possesses an engaging smile. He is completely loyal and unusually enthusiastic in his work. He is always neatly dressed and properly respectful. He has outstanding qualities of resourcefulness, pursuing his investigations with force and aggressiveness.

In dictation he is rated as Very Good, it being noted that he is able to marshall his facts concisely, to express himself well, and to produce a finished product which is satisfactory in every respect. He is a fully competent witness, testifying without bias and with force. I have not observed him on the range, but I believe him to be adaptable to assignments of a dangerous character. His initiative and common sense lend themselves well to physical surveillances. He is an excellent typist, but is not qualified in stenography. In the course of his several investigations, I have found that he has made an excellent impression on law enforcement officials, business and professional persons, and at the same time is able to conduct himself in a successful fashion in underworld groups. I have assigned him matters of a delicate nature, which he has handled discreetly and well.

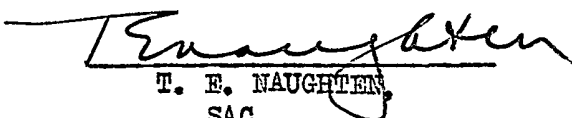

Since his arrival in Omaha, I have assigned him various cases including both general and National Defense matters. He has not had experience in this office in the investigation of Sabotage cases, but I believe he is competent to handle such matters. He is fully qualified in handling security cases which have arisen in this Division. He is presently charged with conducting a vice survey and is making inquiries into crime in this Division. He is also charged with developing white slavery information, and so far has done an outstanding job. His contacts with the police departments along these lines have been extremely productive.

I believe he has latent administrative ability and with further experience in the field might well be considered for experience along this line.

This Agent has not been assigned, nor is he presently assigned exclusively to technical surveillances.

This agent has been assigned to the Omaha Office since February 9, 1944, this being his second office. He was formerly Chief Clerk in the Cleveland Office prior to his entrance as an agent. His appearance belies his age since he looks and acts older than he actually is. He is of strong physique, forceful personality, and an engaging smile. He is completely loyal and unusually enthusiastic in his work. He is always dressed neatly and properly respectful without being subservient. He has an outstanding quality of resourcefulness in pursuing his investigations with force aggressiveness. His reports I have found to be complete and well rounded. He testifies without bias and with force. In dictation he is rated as Very Good. I have not observed him on the range, but I believe him to be adaptable to assignments of dangerous character. He is also able to take over a physical surveillance although it should be noted that his hair is reddish and he probably could not be used on one specific surveillance for any extended period of time for this reason only. Since his arrival in Omaha I have assigned him various cases including general and security matters in headquarters city. He has also been charged with conducting a vice survey making inquiries into crime in this Division. He is also charged with developing white slavery information and he has done so far an outstanding job. His contacts with police departments have been extremely productive reflecting his ability to ingratiate himself properly in the eyes of law enforcement officials. He is one of the more industrious agents and has shown himself to be of above average capability. I believe he has latent administrative ability.

Status - Very Good.

INSPECTOR SCHEIDT:

This man appears to be a very good agent for his grade and length of service. He makes a good personal appearance and possesses initiative and aggressiveness. He is rather youthful in appearance but he has self-confidence. At the present time I would not say, on the basis of interview with him, that he possesses administrative or supervisory ability; perhaps with more age and experience it might develop that he is in possession of such qualities. I believe that he warrants consideration for a salary increase and so recommend.

Dear Mr. Hoover:

On May 11, 1944, I passed my pre-induction physical examination and the results have been forwarded to the Cuyahoga County Local Board No. 43, Lakewood, Ohio.

It is my understanding that the Bureau no longer contemplates requesting deferments for Special Agents of my age, and in view of this fact, it is respectfully requested that I be placed on military leave as of my induction. I will, of course, furnish the Bureau with the necessary proof of induction.

In view of my imminent induction into the Armed Forces, it is further requested that no further deductions for War Bonds be made from my salary at this time. It is also my choice that my accumulated annual leave be paid rather than held in reserve.

I have been affiliated with the Bureau now for almost five years, and I would like to take this opportunity of expressing my gratitude and appreciation for having had the pleasure of serving the Bureau during this period. I have enjoyed immensely my association with our great organization, and it is my most fervent hope that I may once again work with you when my tenure of service in the Armed Forces is completed.

With kind personal regards, I am

Sincerely yours,

Dear Mr. Gale:

I have your recent letter in which you stated that you passed your pre-induction physical examination on May 11, 1944, and therefore desire military leave.

This is to advise that you will be placed on military leave without pay provided you are in the active military service by the expiration of your accrued annual leave. However, it will be necessary for you to furnish the Bureau with documentary proof of your entry into the armed forces. For your information, if such evidence is not received by the date your leave expires, it will be necessary to remove your name from the rolls. In the event it is not possible to submit the required evidence, you should so advise the Bureau immediately.

I am indeed glad to know that you have enjoyed your association with the Bureau and are looking forward to returning. Please accept my best wishes for your future happiness and success.

Personal and Confidential

Re: James H. Gale,
Special Agent.

Dear Sir:-

I am attaching hereto an original letter received May 27, 1944 from Mrs. Mary M. Beck, mother-in-law of James H. Gale, Special Agent assigned to this office. This letter refers to the marital difficulties of Special Agent Gale with his wife, Mrs. Beck's daughter.

You will note that the next to the last paragraph on the third and last page of the letter sets forth the reason why Mrs. Beck wrote this letter to me; namely, that she thought I might be able to set Agent Gale straight on the matter of credit obligations of Government employees, and the importance of paying honorable debts, even though no one can garnishee any Government employee's salary.

Although this has every earmark of being a private family squabble arising from a clash of personalities due to marital difficulties, nevertheless, I confidentially discussed the situation with Agent Gale, as a result of which he has prepared a letter to you for record purposes, which letter is hereto attached, also.

I thought it best to bring this matter to your attention in view of the fact Agent Gale has informed me that upon the occasion of his last contact with his wife, she indicated she would take some action which would embarrass him with the Bureau.

I am not retaining a copy of Mrs. Beck's letter to me, nor do I intend to acknowledge it unless advised to the contrary by the Bureau, it being noted Mrs. Beck does not request an acknowledgment from me, and also, that she obtained a return receipt, as indicated on the envelope itself.

Very truly yours,

T. E. NAUGHTEN, SAC.

~~PERSONAL AND CONFIDENTIAL~~

Dear Mr. Hoover:

For record purposes, I am setting forth the following facts relative to a purely personal matter, which data I feel may possibly be of some pertinency due to the fact that my mother-in-law, Mrs. Mary M. Beck, 1150 Castleton Road, Cleveland Heights 21, Ohio, has written to Special Agent in Charge T. E. Naughten, Omaha, concerning this situation. I hesitate to do this since the matter pertains to my marital situation, and it is only with the thought that the Bureau might desire to be apprised by me of the facts that I set forth the following:

As the Bureau already knows, I was married on January 15, 1941, to Miss [redacted] who was formerly employed as a stenographer in the Cleveland Field Division from June 12, 1941, to December 10, 1941. After our marriage, we departed for Dallas, Texas, to which office I had been transferred. We remained there as man and wife for a period of three weeks, at which time I received a transfer to Omaha, Nebraska. After reaching Omaha, my wife left me and returned to Cleveland, Ohio. I felt that her leaving was due to homesickness on her part, and I went to Cleveland a week later and endeavored to effect a reconciliation, which was unsuccessful. Since the time my wife left me, I have received numerous demanding letters from her attorney insisting that I pay various sums of money for the expenses incidental to her obtainance of a divorce and also to the effect that I contribute \$100 a month for her support.

b6

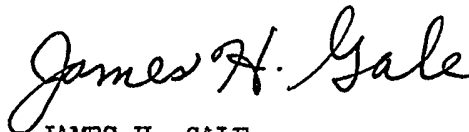

While I was in Cleveland, I advised my wife of the imminence of my induction into the Armed Forces, at which time I was requested to waive my rights under the Soldiers and Sailors Relief Act in order that she might obtain a divorce. Upon my refusal, my wife became quite hysterical and emotionally upset, and threatened at that time to take some subsequent action which would embarrass me with the Bureau. My mother-in-law, Mrs. Beck, now insists that I pay \$57.42, a debt which I feel is disputable. Further, I do not feel, in view of the circumstances, that I am under any moral or legal obligation to pay it. My counsel has informed me that there is no legal obligation to meet any of the financial demands of my wife or her family. I can flatly state that I have never in my five years of service with the Bureau utilized my position as a Government employee for the purpose of evading the payment of my just

debts. I have been at all times, and am now, ready, willing and able to support my wife in the event that she is desirous of living with me.

Sincerely yours,

JAMES H. GALE
Special Agent

May 24, 1944.

Mr. Naughton,
Special Agent in Charge,
Federal Bureau of Investigation,
Omaha, Nebraska.

Dear Sir:

I regret that I find it necessary to trouble you about a matter which should and could have been taken care of without having to be brought to your attention and encroaching upon your valuable time. I feel that anything that concerns one who is on the pay-roll of the United States Government and who is at present in your employ, is naturally of interest to you. I shall be very direct about this matter.

My Son-in-law, James Henry Gale, an Agent in the Omaha Office, under your supervision, is, much to our deep regret, having marital troubles with his wife, [] as you probably know by this time. Needless to say that this has been a terrible shock to Dr. Beck and to me, [] parents.

b6

[] has in her possession at this time, letters from her husband, James Gale, written prior to their marriage, wherein he wrote that it was perfectly agreeable to him to have such a wedding as they did have and we were very happy to do everything we could to make this a day that they would always remember with pleasure. In the above mentioned letters, James asked [] to send him a complete list of his part of the wedding obligations and an approximate cost of same so he could arrange his budget to meet it. We were to take care of these items here in Cleveland for him as he was in Dallas, Texas, and he promised to remunerate us when he arrived in Cleveland.

Their marriage took place in Cleveland, Ohio, the 15th day of January, 1944, and it was a beautiful and happy wedding. That night when James and his Bride left for their honeymoon, the last remark that James made to me before bidding me good-bye was, "Figure up everything that I owe you, Mother Beck, so I can pay you. I will send you the money." That was on January 15th and it is now the 24th of May. Even though he has been reminded of his debt, he has quite obviously chosen to ignore it.

I received just one letter from him since his marriage and in it he thanked us for the lovely wedding we gave them.

When his wife requested money for transportation to come home from Omaha on Feb. 11th, because she was ill, I sent it to her and that money I did receive from James within a week after, but not one cent has been paid on his other debt to date.

His wife [] left him exactly 27 days after their marriage, and it was by mutual agreement that she came to Cleveland to think things over and to try to pull herself together, as she was in a bad nervous and physical condition. She told us that she has in her possession now a letter received from James after she left him, wherein he says that he can appreciate what a shock the 27 days of her marriage were to her. She arrived home on Saturday night, the 12th of February, and Dr. Beck and I were shocked beyond words over the whole situation.

Some two and a half weeks later, on February 29th, James Gale came to our home in Cleveland, as you remember, to visit his wife to ask her to give him another chance and to try to effect a reconciliation. This being unsuccessful, he demanded that she return her rings to him; her engagement ring, her wedding ring and a ruby-guard ring which was his wedding gift to his Bride. He was also unsuccessful in obtaining these. Their marital troubles are strictly their business and no third party can interfere unless it be legal counsel for either or both, so for that part we are staying out of everything, as we feel that if a couple is old enough to get married, they are old enough to settle their problems themselves.

I, myself, was not well at the time that James dropped in to our home, but I accorded him every courtesy that he had always received as a visitor in our home prior to that trouble. The shock of the break-up and the terrific nervous strain it put upon me at a time when I was not equal to it, made it necessary for Dr. Beck to request James to settle his troubles with his wife outside of our home, where ever they might decide to talk things over, as it was disrupting the peace of our home and placing a terrible strain upon me. He also told Jimmy that he was very sorry about the matter, but he did not intend to interfere or become involved in it, that it was strictly up to the two of them to settle it between themselves or go to an attorney's office to get help if they needed it. I, too, felt the same way about it.

James said he was sorry he had caused us trouble and he did not realize he was doing so. About a half hour later he left our home without saying good-bye to either of us, as we were seated in our breakfast room and the young people were in the living room. This is the last we saw of James Gale. I can honestly say that I am really very, very sorry about this whole matter.... that marriage might better have never happened as to have it turn out this way. As for the money he owes us, he left without paying it that night.

When [] and James Gale left Dallas, Texas, about February 6th or 7th, [] says he gave her ten dollars. From Dallas they went to Omaha, and since the above date, James Gale has not contributed one red cent to his wife's support, neither has he paid his debt of \$ 57.42 that he owes to us since January 15th, 1944 for the following wedding obligations that are his debt:

Bride's Bouquet	\$ 30.00
2 Mothers' Corsages	6.00
7 X Carnation Boutonnieres (for the X ⁴ ushers, father, the Best Man and the Bridegroom)	1.75
5 Wedding Ties (for the X ⁴ ushers, the Best Man and the Bridegroom)	18.00
Total	\$ 55.75
3 o/o State Tax	1.67
<hr/>	
Total Amount of debt	\$ 57.42

When James Gale was in Cleveland just two weeks ago, he phoned his wife, [] at our home, on Mothers' Day. Dr. Beck took over the phone for a few moments to state very briefly to James that I had sent him a letter about 5 or 6 weeks ago, itemizing his bill which was still unpaid, and which he claims never to have received. I addressed this letter to him in care of The F.B.I., Omaha, Nebraska, and put my return address in the upper left-hand corner of the envelope. Of course, it is possible that the letter may have been lost in the mail, as that sometimes does happen. When Dr. Beck gave him the amount of his bill, James said he would pay it, but so far we have not received payment. b6

When James Gale made his February visit to Cleveland, and he and his wife were both present in the office of his wife's attorney, [] Cleveland, Ohio, he made this statement to [] I am told by [] "If [] intends to sue for divorce, I refuse to pay for it and you cannot collect anything from me or garnishee my salary because I am a Government employee." Perhaps this the reason for evading payment of the bill he has owed us since the day of his marriage, January 15th, 1944. b6

I write this letter to you because I think you may be able to set James Gale straight in the matter of credit obligations of Government employees and the importance of paying honorable debts even though no one can garnishee any Government employees salary.

I thank you very kindly for your time and interest and for any advice that you may be able to give to James Gale in this matter.

Respectfully yours,

Mary M. Beck.

DIRECTOR, FBI

RE: JAMES HENRY GALE, Special Agent,
Selective Service Status.

Dear Sir:-

In order to apprise the Bureau of the current status of the above-named Agent assigned to the Omaha Division, the following facts are set forth:

Agent Gale registered with Local Board No. 43, 14401 Detroit Avenue, Lakewood, Ohio and has Order Number 10702. On May 11, 1944, upon prior pre-induction physical examination instructions of that Board, and subsequent transferral of papers to Local Board No. 6, at Omaha, Nebraska, this Agent passed his pre-induction physical. His papers were returned to Local Board No. 43 at Lakewood, Ohio and under date of May 22, 1944 he was placed in I-A. Subsequently induction papers were forwarded by Local Board No. 43, Lakewood, Ohio, to Local Board No. 6 at Omaha from which latter place Agent Gale will apparently be inducted into the armed forces. Local Board No. 6 has advised Agent Gale that he may anticipate induction on June 30, 1944.

Under date of May 11, 1944, Agent Gale wrote you requesting he be considered for military leave as of the date of his induction. Under date of May 18, 1944, the Bureau wrote to Local Board No. 43, Lakewood, Ohio, withdrawing further request for occupational deferment for this Agent. By Bureau letter of May 17, 1944 to Agent Gale, you advised him he would be placed on military leave provided he is in the active military service at the expiration of his accrued annual leave. Under date of May 23, 1944, the Bureau wrote to Local Board #43 at Lakewood, Ohio, advising that Board that Agent Gale "terminated" his services with this Bureau.

I fully appreciate the action taken by the Bureau with regard to Agents under twenty-four years of age, and Agent Gale does likewise. He, therefore, anticipates induction with full realization of the limitations of the Bureau's ability to request further deferment; however, nothing has developed which would make it appear he has actually "terminated" his services, as would appear from Bureau letter of May 23, 1944 to Local Board No. 43. As a matter-of-fact, Agent Gale is still on active duty at Omaha and intends to remain in an active duty status until the day of his induction. He desires at that time; namely, the day of his induction, to enter into an accrued annual leave status and he has, by his letter of May 11, 1944 to the Bureau, requested that his accumulated annual leave be paid to him subsequent to his induction, rather than held in reserve.

Re: Special Agent James H. Gale
Selective Service Status.

For the further information of the Bureau, under date of May 5, 1944 Agent Gale entered his application for the Naval Reserve, this action being prompted solely because of the limitations on the Bureau's ability to request continued deferment in his instance. His application for the Naval Reserve is, from every indication, being favorably considered, although it is not known, of course, whether the Commission will be received at the time he is called for induction.

I thought you would be interested in having a current statement as to the Selective Service Status of this Agent, particularly in view of Bureau letter of May 23, 1944 to Local Board No. 43, Lakewood, Ohio, advising that Agent Gale is "terminating" his services.

SPECIAL EFFICIENCY REPORT

In view of my impending transfer to the Cincinnati Field Division, this special efficiency report is being herewith submitted:-

This Agent has been assigned to the Omaha Office, his second office, since February 9, 1944. His appearance belies his age since he looks and acts older than he actually is; he has matured rapidly. He is of strong physique, forceful personality, and possesses an engaging smile. He is completely loyal and unusually enthusiastic in his work. He is always neatly dressed and properly respectful. He has outstanding qualities of resourcefulness, pursuing his investigations with force and aggressiveness.

*Cur
11-1-44*

He is rated as Very Good in dictation, it being noted that he is able to marshall his facts concisely, to express himself well, and to produce a finished product which is satisfactory in every respect. He is a fully competent witness, testifying without bias and with force. I have observed him on the range and consider him adaptable to assignments of a dangerous character. His initiative and common sense lend themselves well to physical surveillances. He is an excellent typist but is not qualified in stenography. In the course of his several investigations, I have found that he has made an excellent impression on law enforcement officials, business and professional persons, and at the same time is able to conduct himself in a successful fashion in underworld groups. I have assigned him matters of a delicate nature which he has handled discreetly and well.

Since his arrival in Omaha, I have assigned him various cases including both general and National Defense matters. He has not had experience in this office in the investigation of Sabotage cases, but I believe he is competent to handle such matters. He is fully qualified in handling Security cases which have arisen in this Division. He is presently charged with conducting a vice survey and is making inquiries into crime in this Division. He is also charged with developing white slavery information, and so far has done an outstanding job. His contacts with the police departments along these lines have been extremely productive.

I believe he has latent administrative ability and with further experience in the field might well be considered for experience along this line.

Rating VERY GOOD.

Dear Sir:

As you have been previously advised, I am entering the Armed Forces in the near future in view of the fact that the Bureau no longer contemplates requesting deferments for Special Agents of my age.

It had been my understanding that I would be inducted approximately June 30, 1944. However, my Local Draft Board now advises me that it will be approximately six weeks before my induction takes place. I am therefore writing you this letter to request that I be transferred to Cleveland, Ohio, at my own expense, until such time as I am inducted into the Armed Forces.

My principal reason for requesting this transfer is that I am desirous of spending as much time as possible before my induction with my widowed mother, who is not in particularly good health at this time, and I am also desirous of taking care of certain personal affairs before going into the Armed Forces.

I will deeply appreciate it if you will immediately advise me as to whether or not favorable consideration has been given to my request, in view of the short time before my induction.

Very truly yours,

James H. Gale

RE: JAMES H. GALE
SPECIAL AGENT (M)

Dear Sir:

I am transmitting herewith a letter addressed to you by the above-named Special Agent in which he requests a transfer at his own expense to the Cleveland Field Office.

Agent GALE has been a desirable employee and I feel that if at all possible, consistent with Bureau policy, his request should be granted; particularly in view of his desire to be with his mother a short period of time prior to his induction.

Very truly yours,

DUANE L. TRAYNOR

Dear Mr. Gale:

With reference to your recent request for a transfer to the Cleveland Field Division, I am pleased to inform you that it is possible to accede to your request.

You are hereby directed to proceed to Cleveland, Ohio, public business permitting, and report to Special Agent in Charge H. B. Fletcher, 300 Standard Building, for assignment.

You should present this letter to Special Agent in Charge H. B. Fletcher, upon your arrival at his Division.

It will be necessary that you defray the expenses incident to this transfer.

Sincerely yours,

John Edgar Hoover

Entered on Duty at Omaha: February 9, 1944
Salary \$3200.00 Grade CAF-9

Transfer Efficiency Report.

This Agent presents a good personal appearance. He has unbounded enthusiasm for the Bureau's work and exercises good judgment in connection with his investigations. He impresses me as being resourceful, capable, and one who is amenable to discipline.

He has handled various types of investigations and has acquitted himself creditably on these assignments. I find he gets along well with others and is able to make friends readily.

I have noticed that in the preparation of his work for dictation he is inclined to be a little careless and it may be this carelessness carries itself over in a small degree into his investigations in that he attempts to do too much in too short a time. This is a matter which, with more experience, will take care of itself and I do not believe it is one which in the long run should worry him.

Because of the success he has had in his investigations, his general attitude and demeanor, and his all around ability, I believe he is to be rated excellent in CAF-9.

RATING EXCELLENT.

JAMES H. GALE
Special Agent
Special Efficiency Rating

The following special efficiency rating is being submitted on the above-named agent in view of his induction into the Armed Services.

Agent GALE served in the Cleveland Field Division about two weeks and it is not possible to add to or amend any of the remarks contained in the efficiency rating submitted by the SAC of the Omaha Office.

It is noted that this agent continued to be very self-confident, assured, industrious, applied himself well and did not waste time. He was the type of employee who was inclined to have his volume above the general average. It was obvious that he had made good progress, perhaps above average, in his grade. He was willing and ready to accept any and all types of assignments and it was indicated that he worked best under an overload.

Agent GALE is rated Excellent in accord with the efficiency rating of July 20, 1944.

In response to a request received from the Office of Naval Intelligence for a routine name check on the above named individual, the writer telephonically advised ONI, that Gale entered on duty with the Bureau as a Typist on November 29, 1939, became a Clerk on January 29, 1940, and became a Special Agent on June 21, 1943. The writer further advised that Gale's record was satisfactory, there was nothing of a derogatory nature contained in his file, and that he was placed in a Military Leave Without Pay status on October 16, 1944.

RECOMMENDATION:

It is recommended that this information be forwarded to the Chief Clerk's Office for appropriate attention.

Dear Mr. Gale:

Receipt is acknowledged of your letter dated July 20, 1945, in which you inquired regarding what your status in the Bureau would be if you accepted a discharge from the armed forces and took an overseas position with the foreign service branch of the State Department.

Under existing regulations, it would be incumbent upon you in order to protect your re-employment rights with the Bureau to make application for reinstatement to your former position ninety days after your honorable discharge from the armed forces. Should you fail to do so and accept employment elsewhere, it would be necessary to remove your name from the rolls and accordingly, you would forfeit any re-employment rights which you might have.

I can readily understand your reason for desiring to accept the proffered position with the State Department, yet, as indicated, if you accept it there would be no other action for the Bureau to take other than to remove your name from the rolls of this organization.

Mr. Allen
July 20, 1945

Dear Mr. Hoover:

Re: JAMES HENRY GALE
Former Special Agent.

I am a former Special Agent of the Bureau presently on military leave, and I am writing to you with the view of obtaining some information as to the effect my application for a position of Special Service Officer in the State Department would have on my present relationship with the Bureau.

I was placed on military leave by the Bureau as of August 8, 1944, at which time I was inducted into the U. S. Navy. Recently I was advised by my Commanding Officer that the Foreign Service of the United States under the direction of the Secretary of State, contemplates a considerable postwar expansion and had requested the Navy and Army to solicit the application of personnel, who had legal experience and a Bachelors Degree for duty with the State Department. He further advised that if upon the completion of a Civil Service Examination and subsequent acceptance by the State Department, the applicant would be discharged from the armed forces to accept the afore-mentioned position.

My Commanding Officer opined that my previous experience could be utilized to a far greater advantage by the State Department, than in my present assignment as a teletype operator, and he stated he would definitely recommend me for said position. My only hesitancy in applying for this position, however, is the thought that such action might jeopardize my future position with the Bureau.

As the Bureau knows I have 5 years service, from 1939 to 1944, in the capacities of Clerk and Special Agent. I am still tremendously interested in the work of the Bureau, and, in fact, desire to make the Bureau my career. Therefore I would appreciate it immensely if you would advise me as to whether my application and subsequent acceptance of a position of Foreign Service Officer in the Department of State, would, in any way, adversely effect my relationship with the Bureau.

Thanking you in advance for any consideration you accord my inquiry, I am,

PLEASE BE ADVISED THAT IN VIEW OF THIS FACT I HAVE WITHDRAWN MY APPLICATION FOR A POSITION AS FOREIGN SERVICE OFFICER WITH THE STATE DEPARTMENT AS IT IS MY DESIRE TO REMAIN WITH THE BUREAU, AND I THEREFORE CONTEMPLATE APPLYING FOR MY FORMER POSITION IMMEDIATELY UPON BEING DISCHARGED FROM THE U. Dear Mr. Gale:

This will acknowledge your letter of March 13, 1946, regarding your reemployment with this Bureau.

For your information, under the Selective Training and Service Act, as amended, you are required to take a physical examination to determine whether you are still physically qualified to perform the duties of the position you left for the purpose of entering the armed forces. Enclosed you will find Form 2413, which should be executed by you and your doctor and forwarded to the Bureau.

You will be entitled upon reinstatement to your former position as Special Agent in Grade CAF-9, to any within-grade salary advancements which you might have received had you remained in an active duty status with the Bureau. At the present time, your salary in Grade CAF-9, under the new Federal Pay Act, which was made effective July 1, 1945, would be \$3860 per annum.

You are advised that it will be satisfactory for you to report for active duty at the Cleveland Field Division on March 27, 1946, at 8:30 a.m.

Inasmuch as you have been away from active duty from this Bureau for some period of time, it will be necessary after your return to duty for you to attend a new Agents' Training Class which will begin on April 22, 1946, in order to bring you up to date with regard to new developments.

Dear Mr. Hoover:

On February 26, 1946, I was honorably discharged from the U. S. Navy at Shoemaker, California, and it is my earnest desire to return to the Bureau on or about the 27th of March 1946, providing this date is convenient with the Bureau.

In view of the fact that my widowed mother is not in the best of health and I have a brother, 15 years of age, who I believe needs my guidance at this particularly formative period of his life, I am most anxious to be assigned to the Cleveland Office and I will immensely appreciate any consideration that the Bureau might give to this desire.

By letter dated March 13, 1946, the above-named Agent advised he had been honorably discharged from the U. S. Navy and that he desired to be reinstated at the Cleveland Office on or about March 27, 1946.

A review of Gale's file indicates that he entered on duty with the Bureau on November 29, 1939 as a Typist at the Cleveland Office, where he had an excellent record. He was recommended for Agents' Training when he qualified for that position and reported at the Seat of Government for training on June 21, 1943. He was assigned to various field offices, and was serving at the Cleveland Office when he went on military leave without pay in order to enter the armed forces.

A permanent brief of the file of Gale is attached.

RECOMMENDATION:

1. That Gale be restored to the rolls of this Bureau and reinstated at the Cleveland Office in the position of Special Agent, \$3860 per annum.

2. That the attached letter to the SAC at Cleveland be forwarded advising that Gale will return for active duty on March 27, 1946, and that he should be instructed concerning the new Agents' Training School which will begin on April 22, 1946.

3. That the attached letter be forwarded to Gale advising him to report for active duty at the Cleveland Office on March 27, 1946.

PERSONAL AND CONFIDENTIAL

SAC, Cleveland

Dear Sir:

Inasmuch as former Special Agent James H. Gale, who will report to your office for assignment on March 27, 1946, has been away from active duty with this Bureau for some period of time, it is desired that he be instructed to report to Room 5256, U. S. Department of Justice Building, Washington, D. C. at 9:00 a.m., Monday, April 22, 1946, for attendance at the New Agents' Training Class.

Mr. Gale should be advised that his assignment during training will be either at Washington, D. C., or Quantico, Virginia. He will receive \$6.00 per diem while in Washington, D. C.; however, if training is given at Quantico, Virginia, a per diem of \$4.20 will be allowed. It will not be possible for the wives and families to be domiciled at Quantico during the period of training. He should be advised to have the following gymnasium equipment while in training: 2 pair wool socks (white), 2 pair of athletic trunks (gray) elastic waist preferred, 2 athletic supporters, 1 sweat shirt (gray), 1 pair of gymnasium shoes (white - either high or low), and 1 pair of shower room clogs.

In the event a situation should arise which would make it impossible for Mr. Gale to report as instructed, the Bureau should be advised immediately.

Very truly yours,

John Edgar Hoover

Director
Federal Bureau of Investigation
United States Department of Justice
Washington, D. C.

Dear Sir:

For inclusion in the fund to be paid to the widow or designated beneficiary of any Special Agent of the Federal Bureau of Investigation, United States Department of Justice, who had contributed to this fund prior to February 28, 1946, and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - ~~MONEY ORDER~~) the sum of ten dollars (\$10.00), made payable to the Chief Clerk of said Bureau, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

The Director of the Bureau will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director of the Bureau in pertinent matters. The Chief Clerk of said Bureau shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of \$10,000.

The following person is hereby designated as my beneficiary for F. B. I. Agents' Insurance Fund:

Name Mrs Violet Marie Gale Address 1251 Summit Ave. Lakewood Ohio
Relationship Mother Dated April 8, 1946

The aim of the Executive order of September 4, 1924, under which this examination is made, is to obtain information as to the physical condition of appointees to the classified civil service with a view to promoting efficiency and minimizing accidents and claims under United States employees' compensation laws.

Notes for Examining Physician

WEIGHT.—Males, without clothing, and also in ordinary clothing without overcoat or hat (weigh twice); females, clothed, but without wrap or hat.

HEIGHT.—Without boots or shoes; observe that no appliances are used to increase.

The examination should include the following observations:

1. **Eyes.**—Ptosis; discharge; corneal scar; pterygium. In recording distant vision consider 20 feet as normal and report all vision as a fraction with 20 feet as numerator and the smallest type read at 20 feet as denominator. If glasses are used, record for each eye the finding with and without glasses. Near vision must be reported. In testing vision without glasses the applicant or appointee should be instructed to *remove the glasses at least one-half hour before testing uncorrected vision.*

2. **Ears.**—Evidence of middle ear or mastoid disease; condition of drums; discharge. In recording hearing, record 20 feet as normal distance for conversational voice and record deviation from normal as fraction with 20 as denominator and actual distance as numerator.

3. **Nose.**—Ability to blow through each nostril. If free, a speculum examination would not be indicated.

4. **Mouth and throat.**—Missing teeth, pyorrhea; tonsils, hypertrophy or disease.

5. **Gastro-intestinal.**—Ulcers, inflammations, etc.

6. **Thyroid.**—Presence of tumor in neck and tremor, exophthalmos; nervous high-strung disposition, especially in women.

7. **Heart.**—Murmurs. State whether functional or organic. If valvular disease exists, state whether or not it is fully compensated. Arteriosclerosis.

8. **Lungs.**—It is necessary that the auscultatory cough be used. If tuberculosis is present, state whether active or arrested; if arrested, state your opinion as to how long it has

been quiescent. Sputum to be examined for tubercle bacilli in all suspected cases.

9. **Hernia.**—Give details as to size, location, etc., and whether well-fitting truss is worn. Inguinal hernia exists when ring is enlarged and on coughing visceral impulse is felt which follows the finger on withdrawal.

10. **Varicocele.**—If varicocele is present, state approximate size—e. g., size of walnut, lemon, etc.

11. **Flat foot** of such a nature as to incapacitate or become aggravated by work or be alleged later to have been caused by accident or occupation. By "flat foot," as used in this form, is meant a *weak* foot with impaired function, the term being equivalent to "fallen or misplaced arch," an abnormal condition. Impairment of function is the point to be noted. An anatomically flat foot, but strong, is not disqualifying. Function should be tested by requiring the examinee to raise his weight several times on his toes and to jump as far as possible, alighting on his toes.

12 and 13. **Scars, deformities, atrophies, and paralyses** should be noted, but it is not important that small insignificant scars or blemishes which might be referred to as marks of identification be recorded.

14. This entry should include symptoms and full history of any mental or nervous abnormality.

15. **Urinalysis** to be made in case of persons over 40, and in all cases where arteriosclerosis, nephritis, or diabetes is suspected, and when obesity is found on examination.

Record of urinalysis, if made: Sp. gr. _____ Albumen _____ Sugar _____ Casts _____

Blood serology test, if made: Result _____

If arrhythmia, bradycardia, or tachycardia is present, give pulse rate: Sitting _____ Immediately after exercise (unless contraindicated) _____ Two minutes after exercise _____ Cardiac reserve _____ (Good, fair, or poor)

SUBJECT: JAMES H. GALE

EMPLOYEE RETURNED FROM MILITARY LEAVE

Further reference is made to a previous memorandum concerning the above employee, a former Special Agent of the Cleveland Office and his desire to be reinstated at the Bureau on or about March 27, 1946.

In accordance with the Bureau's request, a photostatic copy of Gale's honorable discharge from the U. S. Navy and an executed medical form have been forwarded to the Bureau.

Gale was inducted into the Navy on August 8, 1944 as an Apprentice Seaman, bearing serial number 9499244. He was a Specialist (2) TE Second Class at the time of his honorable discharge at the U.S. Naval Personnel Separation Center, at Shoemaker, California on February 26, 1946.

BUREAU RECORD:

He entered on duty with the Bureau on November 29, 1939 as a Typist at the Cleveland Office. After his completion of Agents' Training he was assigned to various field offices, the last one being Cleveland before entering the armed forces. He had an EXCELLENT efficiency rating. He is entitled to reinstatement as a Special Agent, CAF-9, \$3860 per annum.

SERVICE RECORD:

A check of Gale's service record reveals nothing of a derogatory nature.

PHYSICAL EXAMINATION:

His physical examination reflects that his vision is normal, and he has been recommended for arduous physical exertion.

RECOMMENDATION:

The foregoing is submitted for your information, inasmuch as Gale reported for active duty at the Cleveland Office on March 27, 1946. The necessary papers restoring him to the rolls of this Bureau have been prepared and sent through.

JAMES H. GALE
Special Agent
Special Efficiency Rating

This special efficiency rating is submitted on Special Agent JAMES H. GALE, who reported to the Cleveland Field Division for assignment on March 27, 1946. This agent was in a military leave status from August 7, 1944.

Agent GALE presents a good personal appearance and a very friendly, likeable personality. He is considered conscientious, ambitious, aggressive and industrious and has performed his assignments in a highly satisfactory manner. He has applied himself very vigorously to his investigations, is cooperative and has presented no personnel problem whatsoever.

Agent GALE has had no difficulty in the handling of Bureau automobiles and has qualified in the use of firearms. He has very readily adjusted himself upon return to his agent status from military leave and has a very good working knowledge of the Bureau's manuals and regulations. His paper work has required practically no supervision and his investigations have been found logical and thorough. His work is afforded immediate attention and his volume is above average.

This agent appears to be in good physical condition and available for any type of assignment. He has exercised initiative and good judgment in the handling of his work and in my opinion is entitled to a rating of Excellent in Grade CAF 9.

This employee entered on duty on 11-29-39 as a Typist and was appointed a Special Agent on 6-21-43. On 10-16-44 he was placed on Military Leave Without Pay during which time his salary was increased to \$3860 per annum in Grade CAF-9 as a result of two automatic increases in salary effective 1-1-45 and 1-1-46 and a basic salary increase effective 7-1-45. On 3-27-46 he was removed from Military Leave Without Pay inasmuch as he had resumed active duty in the Bureau. He is being considered at this time for reallocation to Grade CAF-10 at \$3970 per annum.

On 6-7-46 SAC O'Connor rated him EXCELLENT. A permanent brief of his file is attached.

RECOMMENDATION: It is recommended that he be reallocated to Grade CAF-10 at \$3970 per annum to be effective immediately.

Special Efficiency Rating

This special efficiency rating is submitted on Special Agent JAMES H. GALE pursuant to the Bureau's request of November 8, 1946.

Agent GALE presents an excellent personal appearance, has a genial personality and makes friends readily. He has handled his contacts with the public and police officers in a most excellent manner. He shows skill in the organization of his work and in the submission of investigative reports. He is far above average in aggressiveness and industry which is reflected in an above-average production of Bureau work.

During recent weeks, this agent has worked on an important Theft From Interstate Shipment case and in this connection he has exhibited resourcefulness in the development of leads and in the carrying out of the investigation. He requires a minimum amount of supervision in the handling of important assignments and I have no hesitancy in assigning such matters to him.

It is to be noted that the Bureau was advised by letter dated October 15, 1946 concerning an injury to the hearing received by this agent in connection with firearms training. This situation is fully reflected in that letter. Agent GALE's ability to hear conversational tones appears to be perfectly normal and the injury does not seem to in any way impair his efficiency.

Based upon his performance, I consider that this agent is entitled to a rating of Excellent in Grade CAF 10.

Injury - August 20, 1946

~~PERSONAL AND CONFIDENTIAL~~

There is enclosed a copy of a letter received from Special Agent James H. Gale concerning an injury sustained by him on August 20, 1946 while in the performance of his official duties.

From the information set out therein it appears that this Agent has been undergoing treatments by a private physician in connection with an injury incurred by him in the performance of his official duties. From the facts submitted it does not appear that there was any particular emergency present which prevented this employee from utilizing Government facilities or regular designated United States Medical Officers and as a result it appears probable that any claim by him for expenses thus far accrued may not be honored. In the event he expects to obtain benefits under the Compensation Act should further treatment be necessary, it is mandatory that he comply with the provisions of the Act. If the designated medical officers or Government facilities cannot afford him the treatment needed then on the recommendation of such medical officer or Government Hospital it will be possible for him to obtain treatment from a private physician. However, this situation must be made known to the Bureau for referral to the Commission before further action is taken by the employee.

Re: Special Agent JAMES H. GALE

Dear Sir:

The following information concerning the writer's physical condition is being set forth hereinafter for the information of the Bureau:

Approximately at 11:00 A. M. on August 20, 1946, the writer was engaged in firing the Thompson Sub-Machine Gun at the regularly scheduled firearms training period for the Cleveland Field Division. Immediately upon completing the Thompson Sub-machine Gun course, the writer was aware of the fact that he could no longer hear anything but loud noises.

Later in the afternoon, the writer was called upon to participate in the arrest problem by Special Agent in Charge T. C. RICHARDSON of this office. At that time, I informed him that I was unable to hear, and, therefore, I could not participate in this problem.

In view of the fact that this condition did not improve in the resulting several days, the writer consulted Dr. FRED A. DICKSON, Ear Specialist, at 1024 Rose Building, Cleveland, Ohio, at which time I was advised by Dr. DICKSON that the concussion from the machine gun had caused an indentation of the eardrums. After a series of treatments by this specialist, the writer gradually has regained his hearing.

On September 27, 1946, the writer was given a hearing test on the Western Electric 6A Audiometer by Dr. DICKSON. The results of this test reflected that the writer's ability to hear conversational tones was perfectly normal and had not been impaired by the concussion resulting from the shooting of the machine gun; however, Dr. DICKSON advised that there was a 45% decrease in the writer's ability to hear high tones. In explanation of this, Dr. DICKSON advised that high tones consist primarily of high musical tones. A copy of a chart reflecting the results of the audiometer test is being enclosed herewith for the information of the Bureau.

Dr. DICKSON stated that this 45% decrease in ability to hear high tones would not in any way affect the writer's ability to perform his functions as a special agent of this Bureau at the present time in view of the fact that my ability to hear conversational tones is normal. He stated that the writer would be able to pass any hearing test afforded by the government in view of the fact that their tests would only encompass the ability to hear conversational tones.

Dr. DICKSON further advised that it was possible that in a period of time the writer would regain his ability to hear high tones. He stated that he was particularly desirous of affording me another examination after the writer again participated in firearms training, inasmuch as he wished to observe whether or not continuance of firearms training would cause a further decrease in the writer's ability to hear high tones. He went on to explain that if further concussions cause inability to hear high tones it will over a period of time cause the writer to become deaf. The doctor also advised that the use of specially made ear plugs by the writer may completely eliminate the possibility of any further damage being done to the ears.

The writer has purchased a set of the aforementioned ear plugs, and the Bureau will be advised after the writer participates in the next firearms training period whether or not this specialist deems imperative that the writer cease participation in firearms training in order to protect his hearing.

There are being enclosed herewith Forms CA 1 and CA 2; however, no claim for compensation is being made at this time in view of the fact that it is not known whether or not the injury to the writer's ears will be of a temporary or permanent nature. The reason that these forms were not submitted earlier is because it was definitely believed at that time that this injury was temporary in nature.

Very truly yours,

James H. Gale

STATEMENT OF WITNESS

[The statement of witness should tell just what the witness saw personally, or, if he did not see the injury occur, just what he knows about it and when and by whom the information was given him.]

On August 20, 1946, while supervising the regular scheduled firearms training period at Camp Perry, Ohio, I had occasion to converse with Special Agent James H. Gale, after he had finished firing the machine gun, at which time he was unable to hear ordinary conversation, and he advised me that immediately after shooting the machine gun there was a very loud ringing in his ears which prevented him from hearing. To my knowledge this condition has steadily improved and this agent can now hear conversational tones normally.

Dear Sir:

This office has received your written notice (Form CA-1) of a personal injury reported to have been sustained by you on August 20, 1946 while in the performance of your duties as an employee at the Federal Bureau of Investigation, Department of Justice, Cleveland, Ohio.

Such notice also is a claim for any benefits to which you may be entitled under the Employees' Compensation Law of September 7, 1916, as amended, and extended. Such law authorizes medical treatment and payment of compensation for wage loss for disability resulting from an injury sustained by a civil employee of the United States in the performance of his official duty.

The information on file in your case is not sufficient to show that you are entitled to benefits under such Act because the injury caused no material disability for your usual work since the report of your medical examination on December 23, 1946 disclosed no material disability due to the injury of August 20, 1946.

If you desire to submit additional evidence on this point you should do so promptly. Such evidence should be in written form but need not be formal or notarized. The local office where you were employed may be able to assist you in this connection.

Your case will be held open for thirty (30) days to permit you to present additional evidence. If within that time you do not indicate your intention to perfect your claim, the file in your case will be closed.

Very truly yours,

RE: REALLOCATION

This employee entered on duty as a Typist on 11-29-39, was appointed a Special Agent on 6-21-43 and was placed on leave without pay from 10-16-44 until 3-27-46. During the time he was on military leave his salary was increased to \$3860 per annum in Grade CAF 9. On 6-30-46, he was reallocated to Grade CAF 10, \$3970 per annum and as a result of a basic increase in pay, effective 7-1-46, his salary was increased to \$4525.80 per annum in Grade CAF 10. He is being considered for reallocation to Grade CAF 11, \$4902 per annum.

On 11-13-46, SAC Richardson rated him EXCELLENT.

It is noted, in view of the reallocation policy in effect at the time this Agent entered on duty, other members of the class are already in Grade CAF 11.

A PERMANENT BUDET OF HIS FILE IS ATTACHED.

RECOMMENDATION: It is recommended he be reallocated to Grade CAF 11, \$4902 per annum.
